*"Each one has to find his peace from within. And peace to be real must be unaffected by outside circumstances."*

*-Mahatma Gandhi*

Peace outside is closely interlinked with peace inside. This, to my experience, is the most important premise for propagating peace; achieve peace within to create the state of peace in the world. We cannot get rid of conflicts and wars as they are by products of freedom of choices and thoughts. We can only salvage humanity in such hostile and dangerous situations with peaceful individuals. And, in my opinion, Education plays a very crucial role in nurturing peaceful beings.

We recognize that every individual is a distinct and different being with his own set of thoughts and therefore, friction will naturally surface between differently thinking living beings. If we tell our children that this 'difference in opinion' is the fundamental piece of truth, we can then take them on a journey where they not only acknowledge it but also learn to respect each other in spite of differences. Here, it must be clarified that respecting a different view point should not necessarily imply changing one's own stand. As Aristotle has put it so eloquently, "It is the mark of an educated mind to be able to entertain a thought without accepting it."

As educationists, it is our duty to groom children to be tolerant of differences and benevolent in behaviour. Once we ensure peaceful minds, happiness will automatically prevail. After all, happiness and peace are interconnected too. If we teach our children to accept their failures as the stepping stones and to compete not with the world but with one's own self, we have done our job well. My ardent request to all parents, teachers and mentors is to become Peace role models for little children. Once, the child sees his parents, his teachers handle a situation of conflict and aggression with peaceful demeanor, be assured that we have inculcated peaceful disposition in our little minds as well.

Let the journey of this peaceful world begin with us and with one step at a time.

## Vice Principal's Message

*"We can never obtain peace in the outer world until  
we make peace with ourselves."*

*~Dalai Lama*

The simplest truth to exist is to be at peace with oneself. It is also the hardest task as mind is a complex organism that often wavers than rest unless sleep consumes it. Mind is an efficient master but also a naive follower. It is what we think we become and act accordingly. Perception based on positive interpretations of the things and people around us will make us less critical, reduce our anxieties and keep us going. The best way to feel at ease is to enjoy the present moment and not worry about the times that have gone or are yet to come.

Most often, thinking about what we can't control, robs us of our mental peace. It is better to let go than keep worrying. If we pursue what we like, it will make our lives peaceful. A positive outlook to the world around us again reduces undue stress and increases peace.

There is no single route to a peaceful journey in life. There are many diversions and many experiences. Each one affects a different learning; hence, peace achieved through all turbulence and tension makes us saner and calmer.

Dear children, be prepared to face all situations with determination, skill and peace. Your peaceful minds will give you effective solutions and render greater patience and courage to stand for yourself and the situations in which you find yourselves.

## Headmistress's Message

*'Wisdom is a weapon to ward off destruction.'*

The more you share your knowledge, the more you shine. Knowledge and wisdom are like twins and there is a very thin divide between the two. True, it is knowledge that can impart wisdom, but we must remember that wisdom to shift knowledge is equally important to lead a meaningful life. Knowledge gives you awareness but wisdom gives you liberation from complications that can disturb your life.

I quote from Abdul Kalam's The Righteous Life. It tells us that a righteous life built on the edifice of knowledge can give us a purposeful life that everyone must aspire to achieve. Kalam quotes the Tamil Classic Thirukkural, "Wisdom is a weapon to ward off destruction. It is an inner fortress which enemies can't destroy."

If I were to define wisdom, I would say it is a 24 carat gem that is made of knowledge. That means, the deeper the knowledge, the greater the wisdom. Therefore, it is important that one cultivates the right kind of knowledge in order to acquire the required wisdom to tackle the difficulties in one's journey of life.

We were told throughout our childhood to remember that there is no wealth greater than knowledge and that knowledge is the only wealth that does not decrease when you share it with others. The more you share your knowledge, the more you shine, and wisdom becomes a rich depository within you.

Knowledge itself has nothing to do with power or wisdom. It's power comes out when you use it for the benefits of people. That is why I would say knowledge needs to be used in a manner that it makes others realise the way to move ahead in life. And to recall what Buddha said, "THERE IS NO POVERTY WORSE THAN IGNORANCE."

# Headmistress's Message

*To survive in peace and harmony, united and strong, we must have  
one people, one nation, one flag. -Pauline Hanson*

One's true identity is revealed in one's rootedness. This is determined by customs, beliefs, shared values and pride in belongingness. I'm an Indian and feel greatly proud of being one. As a teacher, I feel that Patriotism is a vital value that needs to be taught to the learners. Our nation has a diverse character and this is both a challenge and bliss. Schools can play a crucial role of involving the students in activities that increase their love for India. It's imperative to invest in our greatest capital, the children, who in turn will change the face of our country in times to come. Our children are aware of the problems that our nation is facing, hence, it is essential that we train them to solve these skillfully. From the celebration of Independence Day to hoisting the flag on Republic Day, from cultural performance on the Annual Day to participating in International Exchanges, each time the powerful emotion of 'Being Indian' grips us and our heart swells up. Our school strongly adheres to facilitate the learning of its students in ways that help them cope up with difficult situations in and out of India. Wherever our children may go, their roots are extensively embedded deep in the native soil. Patriotism is not just about being passionate but it is a skill to be drilled time and again to add value to the country's growth.

I wish all the beloved students of our school great successes in lives and also a word of advice – 'Never forget what your Nation has given you for you may forget it, it won't forget you ever ,'

Every year in the month of April, we welcome with open arms and warm hearts, a new batch of fledglings in the pre-school wing. When these little ones come to us they are bursting with curiosity and have soft impressionable minds. It then becomes our moral duty to provide them with an environment where they learn to spread their wings and prepare for their future flights.

As we plan a schedule to colour their minds with the myriad shades of the world, I wonder about the ways and in fact the need to instill patriotism in this future generation of responsible citizens. I feel the spirit of patriotism is essential to permeate positive values and instill good ethics in all walks of life. It creates a common platform and understanding for people of different races and beliefs in a country to work together in a positive and constructive manner in nation building activities. Infact, the school mirrors a nation in its composition, for it too becomes the common platform in bringing students together from various strata of the society to work together and build bonds nurtured with faith and trust. These bonds would not let them cheat each other and lead to the creation of a nation well-knit together with the larger qualities of humanity. Story telling evolves as the most effective way of imbibing patriotism from the daily life. Stories of our struggles of independence and national heroes such as Bhagat Singh, Mahatma Gandhi and Major Sandeep Unnikrishnan etc. would inspire the young minds to think and work towards the greater goal of building a nation without borders. They would learn to value sacrifice and respect their freedom. I also believe that acquainting them with the national flag, the national symbols, the national anthem and the national song would help them learn their patriotic values early in life, thereby ensuring a generation that would keep the national interest much ahead of their personal goals.

No fancy words or quotes, no history of war and peace and definitely, no eloquently put words describing the need for peace. My dearest reader, I just want to share with you five ways to achieve peace put together by a teacher, a mother who is forever surrounded by cacophony of noises and cases of conflicts to be sorted at the drop of a hat. I am neither a peace seller nor a self acclaimed spiritual teacher. But what gives me bravura to share it with dash of audacity is the belief that remedies are always simple and available to all those who are looking for them.

## **1. Find time to meditate and exercise-**

Even if it is for 5 minutes before starting the day, in between the breaks, or while commuting to workplace - 5 minutes are all you need to begin with. The point is- do it. Meditation need not be complicated; it can be simple, deep breathing. If you are enjoying it and want to learn more, go ahead and watch videos on Youtube. Even for physical exercise, we can chalk out the simplest plan. Never ever go for the best plan. Generally, the more impressive the plan, more miserably it flops and fails. Start with the simplest 5 minute thing and see if you have time for more.

## **2. Focus on acceptance & gratitude-**

Self acceptance is the toughest task because we often judge ourselves (too harshly) by the 'rigid parameters of society'. Even though we know for a fact that every human being is different,

we all aspire to become the popular prototype- the one who excels in his professional endeavours (not many care how good you are at gardening if you are a bad professional) The point is- everyone excels but not every time. We all have our highs and lows. Let us learn to live with them and not be harsh on ourselves. Above all, a sense of gratitude for all that 'I am and all that I have' is the recipe. Begin your day with this sentence to yourself, "I am perfect with my imperfections" and practice self compassion with positive affirmations.

## **3. Keep positive company**

I have recently read about negative people being garbage trucks- the people who carry along all their frustrations, anger, misgivings, complaints etc. wherever they go. Obviously, if we carry garbage all the time, we will create the stink as well. So, readers, make friends who are cheerful, happy and positive personalities and who exude pleasing fragrance. Watch out and observe the people who surround you. If it is tougher to find such positive people around, become one for others. As Gandhiji says, 'Be the change you want to see in the world.'

## **4. Change place to change thoughts.**

Sometimes, life and its circumstances can be very trying and tough to deal with. We come to a juncture where we feel nothing is working or helping at all; the emotion of despondence takes over and consumes all the positive vibes. In this situation, run away (of course for a short

while). Get up, change places- you can go for a walk, take a weekend trip (if time permits), or simply escape to the world of green like parks or to the amazing world of music. To fight tough battles of life, we need to charge our batteries. This isn't escape truly speaking; this is withdrawal to rejuvenate and get back with greater energy and clarity.

## **5. Smile because it makes us look great and feel better**

There is a good friend of mine who I happen to advice on the grounds of me being senior in terms of age. I tell her often, "Fake it to make it". Readers, if you don't want to smile because it doesn't come to you naturally then fake it. It is a Herculean task and you will say that it is easier to advice than to actually do it. Right you are but don't dismiss the idea without giving it a fair trial. Wise men say, 'Practice makes the man perfect'. Smile has huge healing capacity and is highly contagious. Use smile to defuse the tension and elevate yourself of all the pain and anguish. Everything we give to the Universe boomerangs, so giving away radiant smile is the most selfish thing to do because you will get richer with the world smiling back at you.

This is all that I have truly learnt from my life experiences and this is the talisman that I strive to live my life by. (Hoping to hear from you).

Hark! The sound of violence. Hark! The sound of destruction. Hark! Before we all perish. The world has had enough of war, bloodshed, hatred and unrest for various reasons. What it needs now is peace, amity and harmony. Peace is not merely absence of war. It is a state of being tranquil and contented. This is because peace generates a sense of security in the minds of people and leaves them free to think about ways and technologies that can make the best use of resources for the betterment of humanity. Most of the hatred and unrest in the world comes from

the greed of a few people. So the best way of attaining peace is to take from the world "one's own share" without stealing that of others, to fulfill one's own needs without depriving others of theirs, to satisfy one's own desires without thwarting others. We all must learn to love peace. As Martin Luther King said:

"It is not enough to say we must not wage war. It is necessary to love peace and sacrifice for it."

In a country as diverse as India, there are only two things that unite us all in our ecstatic yet dormant display of patriotism: Cricket and War. I have placed cricket before war in my expression for we witness the former more than the latter and let's thank God for that. An exceptional display of patriotism was instrumented by our honorable Prime Minister's strategic surgical strike on Pakistan last year. When every television channel and every inch of the habitable world was applauding the surgical strike along the L.O.C., I had my own anxieties to bother me down my chilling spine. Every 'patriotic' citizen of our nation wanted Mr. Modi to declare war on Pakistan except for a few like me. I had always told everyone, my friends, my colleagues, my students and just everyone, with a heart full of pride about my brother, my younger baby brother being a decorated fighter pilot in the Indian Air Force. But now, there was something that had overshadowed all that pride, a fear of a possible war looming large over many families that had their sons, brothers, fathers and friends in the armed forces. All this turbulence within and outside made me introspect and ponder over my own

character... Was I being selfish in not hoping for a war and not answering back a nation that believed in bombing us everyday? Was I being any less patriotic in not believing in the greater good of the nation, in expressing our power and letting the neighbour know that we will not tolerate its attempts to infiltrate our borders and spread terrorism? Was I being mean in any way? All that pondering made me think of the possible alternatives to war. And that is when I realized the highest truth in the world; the belief in World Peace. A belief in the imaginary existence of a peaceful El Dorado. How could we forget that mankind was not created to live forever violent lives? The very contra existence of compassion is as much a part of the human race as its unnerving cruelty. To initiate a narrative of peace, there needs to be a major shift in the basis of human thought and discourse. Dear students, I write to you to emphasise on our need to realize the positive potential in each one of us and stop the dehumanization of the entire mankind in the name of war.

*"Happiness is the consequence of personal effort. You fight for it, strive for it, insist upon it, and sometimes even travel around the world looking for it. You have to participate relentlessly in the manifestations of your own blessings."*

These are the beautiful words of coveted author  
**-Elizabeth Gilbert**

The world is caught in its own mystery, the one that surrounds the idea of self-sustaining peace despite all the turmoil and misery. In today's fast paced world as we move ahead, with several tasks up our sleeves, we drown ourselves into the self-created ignorance of our own leisure. As the time passes we unwittingly subject ourselves to insurmountable physical stress, anxiety, emotional instability and seclusion, all of which are detrimental in the long run. All that the eyes seek and the heart desires when one is drowning in this sea of emotions is – PEACE. Peace is both power and progress; process and product. Peace has an enormous ability to feed our souls with the essential nutrients of happiness, love and calm. Inner calm is felt through a consistent introspective analysis, discovery of beauty of the small things around and marveling at the unexpected joys that come to us from anywhere and from anyone who brings

them to us.

There are no ultimate destinations but set of smaller goals that steer us to larger ones. If at each step, peace is not our companion but anticipatory anxiety and doubt are, then we shall never take pleasure in the trip.

Let's all become the rolling stones in the beautiful and spiritual journey of life. Sometimes, when the passage is too narrow, rickety or jagged, we shall stop, gaze and then move and rest of the times we shall move briskly. At all times, the strength will be derived from the peace that dwells inside us. Peace creates room for happiness, self-love and hence makes us love everybody and everything around us. This increases our efficiency to strive harder, envision progressive, constructive and utilitarian world with a greater degree of optimism to work earnestly. So, let's try to strike a peaceful chord with all the things which bring us peace and sleep with an infantile tranquil, grateful for our meaningful existence.

Peaceful are the ways in which we think,  
Peaceful are the dreams at the brink.  
Peaceful is the life that we need,  
Peaceful is the nature of our creed.

# INDO-DENMARK CLASSROOM EXCHANGE PROGRAMME

A group of 31 students and three teachers visited St. Knuds Gymnasium School at Odense, Denmark for a cultural exchange programme in May, 2016. The aim behind the exchange programme was to acquaint the students with the cultures of the world and prepare them for international experiences. The students and teachers stayed with their Danish host families and had a first hand experience of Danish lifestyle and education system. The Danish delegate visited BBPS Rohini in October, 2016 and were hosted by our students.

## Memories of an Unforgettable Experience

"In May 2016, I participated in an exchange programme as part of a group of 31 students. For me, it was a chance to be a part of a Danish family, a "Fisher" for 2 weeks. From the very first day, my host Ayoe Fisher was like a soul sister to me rather than a host. Her entire family ensured every comfort for me. I was surprised to unearth our similarities. We also visited her school, Sct. Knuds Gymnasium to get an idea about the Danish educational system. The most enjoyable experience for me was when we hosted the India Day in their school. This

distance from my homeland made me more patriotic than ever and we proudly showcased our culture to the Danes. Their interest in our culture was truly impressive and they loved the Henna tattoos and all our ethnic wear the most. The Danes hosted a farewell for us and it left us all with that little tear in the corner of our eyes. I enjoyed spending time with my Danish family. It gave me a greater perspective of life and helped me relearn the values of kindness and gratitude.

I am proud to be an Indian. India has improved a lot. India is my favourite country because it is a land of many religions like Hindu, Muslim, Sikh, Christian, Buddhist etc. Many Indians like APJ Abdul Kalam, Homi J Bhabha, Sachin Tendulkar, P.V. Sindu etc have brought laurels to the country. Many kinds of crops like wheat, rice, sugarcane, bajra, jowar etc. grow here. I love my country India and am proud to be an Indian.

# I am Proud to be an INDIAN

I am proud to be a citizen of India, a country which has taught the world tolerance and universal acceptance. It is true that India has not invaded any country of the world for the last 10,000 years. This country is surprisingly peaceful, no need to mention that. Even our freedom was achieved by the policy of Non-Violence (AHIMSA).

I salute my motherland and pray to God to give me birth in India again.

India is a country in which we all love each other,  
All Indians live like brothers and sisters.

Where people enjoy,  
with hearts full of joy,  
Where festivals are full of light,  
Make our night day very bright.

We are happy to live and share,  
We are happy to stay and care.

India has to be clean,  
India has to be green.

We have to grow trees,  
We have to stay in peace.

Our scientists have lifted India's pride by placing tri-colour on moon. The missiles such as Agni and Prithvi have strengthened our nation's security and ensured our place in elite group of world's powerful countries.

India is excelling in all fields and the day is not far when India would be transferred from the category of developing countries to developed ones and it would offer competition to other developed countries.

**Anish Trehan**

I am proud to be an Indian because many famous personalities like Mahatma Gandhi, Rani Lakshmi Bai were born here. There are many beautiful monuments which people from different countries come to India to see them. India has no slavery system. India is more peaceful than other countries. India is the seventh largest country in the world. Many children are now getting education. Indian Government is making efforts for the poor people. The vegetation of India is now improving. Mostly all people are getting food and water.

# Peace is the way to Progress

God created humans  
To live together, to stay happy,  
to help others, to talk to someone.  
But, now there is no peace !

We have to learn to stay peaceful  
To feel the purity of heart,  
To feel the beauty of nature  
and get inspired each day.  
Love each other and you  
will find peace.

**Hitu Khanna**

Gandhiji was the man who lived all his life for peace. Peace is a good virtue. Gandhiji always advocated peace and non-violence. We should always be disciplined in our school as well as at home. If we want to make our classroom peaceful then first we have to be disciplined in our class. Peace is the first step for a nation to become a developed country.

**Arshita**

When wars and conflicts totally cease,  
In our world there shall be peace.  
People must learn to get along,  
Not blame others for being wrong.  
Peace is something we all seek,  
When we lack it we feel weak.  
Peace is something we mutually share,  
For it is just and always fair.  
Peace is something we have to follow to  
clear mess.  
Peace will help towards our country's  
success.

We need a peaceful India where,  
there are no fights, no injuries and not any violation  
of laws.

We need a peaceful India where,  
all are equal, humble and patriotic towards the  
country.

We ( The New Generation) are the future of India,  
only we are the ones who can make it better.

We have to work hard,

We need not fight with anyone because it starts with  
us.

So, we will not fight, we will work hard and educate  
people about peace and this peaceful country.

Till we succeed in making a happier India,

Till we succeed in making a peaceful India.

**Kriti Khurana**

India, the largest democratic country in the world, is a land of ancient culture and tradition. The wisdom of vedic songs enlightens the world and guides the human race to path of peace and coexistence. India is an integrated country where people of different religions like Hinduism, Buddhism, Jainism, Sikhism, Islam, Christianity and Judaism live in harmony. The unity in diversity is unique to our nation. India is growing continuously in fields of technology, science and literature due to hard work of eminent people like Rabindranath Tagore, C.V. Raman, A.P.J. Abdul Kalam, Homi J Bhabha. India has launched number of satellites in space for helping us in weather forecast, communication, medical research and education.

Peace is the mother of progress. Without peace a nation cannot make any progress. The word 'World Peace' makes us dream of happiness and prosperity and well-being of all living on the earth. If the whole world maintains peace, then there will be no sadness and no violence.

And embrace peace through humanity.

War makes children so much tougher,

Lose their innocence while they suffer.

We must fight for peace instead,

Love not war, we should spread!!!

So, let's stop the wars and embrace the peace to make India and this world a wonderful place to live in.

Peace is the way to progress,  
It's all about taking no stress.  
Peace is all we need,  
It's the perfect way of life to lead.

With peace, every fight can get solved,  
And every problem can get dissolved.  
If you are in a problem and you want peace,  
Just go to a place full of trees.  
When you will go out of the pollution,  
Your mind will come to the solution!

Peace is necessary in the world to live in. Happiness and co-operation are required for ideal state of peace in the world. Despite different cultures, customs, economic and social differences countries have common resolution to have peace in the world. Many organizations are made for this cause. Let us be an active agent of peace in our country.

**Khushi Gupta**

**VI A**

Peace is a state of mind in which we are calm, quiet, hush and we are out of worldly possessions. It is the only thing which can control our body and all our six sense organs. Peace also provides us the knowledge of what to do, how to do and we can say that it can help us to take a correct decision. If all human beings are calm we can have a good life and world will be a happy place to live in.

**Vritti Garg**

**VIA**

Peace makes us loving, caring and brings us close to success. Then why do we don't leave wars and inequality? Why don't we find solutions to our problems by talking to each other? Why do we try to find the solution by fighting? The answer to all these questions is not one but three, inequality, non-unity, and our ego. Pakistan doesn't stop fighting because it wants Kashmir, but India refuses. Besides that, they also want to be declared a democratic nation but they are not polite enough to ask for it, they again fight for it. Can't they stop fighting and ask UNO about it? Can't they develop their country and be friendly to other countries? This is what we call ego and not uniting with the whole world. We use our fists and don't talk about it because of our ego and later we see the effects on us. Then how can we stop all this?

We must be friendly, for it will stop wars,

We must leave our egos, for it will help you find the correct solutions,

And the last but not the least,

We must live in peace, for it leads to prosperity!

Every war can be finished through peace.

This adds to life a greater charm.

When there's harmony , there is peace ,  
Joy on earth does increase.  
For peace to grow in your community,  
The first step is social unity .

We all know that healthy relations ,  
Are the keys to peaceful nations .  
Wars and conflicts , we must avoid ,  
So that beauty of life, may be enjoyed .

We just need to open our hearts ,  
That's where peace clearly starts .  
It's not that difficult to embrace and find ,  
With a caring and open mind.

An albatross still hangs around my neck,  
Because once I cheated myself.  
I kept on believing and blindly trusted this bally world.  
The world which is now responsible for my lunacy.  
I am lamenting and my heart and soul are tired now.  
I am sleep deprived and I know I am the one responsible for my downfall.  
The world followed my cold command and made me proud and boastful day by day.  
I believed that I am superior than others,  
even God has lost all the powers.  
This was the only first time where the world pulled me down to the ground and God took away all my wealth and made me a beggar again.  
Now that it is too late for me to realize  
That whenever you are proud of your capabilities and the things you have got in life, the things will become worse.  
I hope one day, I will get my mental peace back.  
He took everything from me,  
Still there is a ray of hope that one day I will get my good night's sleep back and all my tensions and pain will be withered away with time.

# PEACE *-as I See it*

What is peace? Does it mean love, prosperity, quiet borders or a peaceful mind? Peace for me is the ultimate truth achieved through self control, it is for the human race, the nirvana that we all strive for. If we achieve the inner peace for ourselves we all would find ourselves capable of spreading the message far and wide.

Peace brings a calm positivity to our life generating a powerful energy around us. In today's world, it is absolutely essential to unleash this healing energy as much as we partake of the wind, solar and the tidal energy. Peace too is a gift of nature that man hunts for on the top of the mountains, in arid deserts or in thick green forests.

**Aastha Shekhar**

In the World's eyes  
Like sanctums are tied  
With complete care and bright

As we are purling the peace  
With our heart and mind  
As a puritan is willing  
To make peace as an inception  
Towards a stubborn decision in our life

We are not included in this peace  
We are an inclusion to this part  
Peace is not a foe  
It's a friend to our art

Peace as I see it  
In the world's eyes

Everything wars will seize, if this world does not maintain peace!! Wars are just an unworthy medium to make our wants and needs heard and that can be resolved by peaceful methods. War is one of the heaviest destruction a country faces as a result of rampage. The world wars that have happened till now have caused a huge disturbance in the lives of many. These fights are not going to fulfill the dreams that our freedom fighters had once dreamt of. To make this world a better place to live in, we have to uphold world peace as a living aspiration. Peace is the cure for the wounds the wars have given us and a means of prevention also. We need to understand that if we keep on fighting, our problems are only going to burgeon and one day the world will be ravaged. This is a vicious circle. We have to take initiatives to make people aware about what peace is. Peace is the first step in the progress of a nation.

Wars impose a corroded sheen on our nation. If we don't stop, we all will be gone on a vacation, most likely to hell.

Peace in today's world will ensure safety for one and all. In a peaceful world there will be no place for any kind of destruction and would make people believe in the ideas of brotherhood and marching together on the path to peace and prosperity.

"Darkness can not drive out darkness, only light can do that. ## Nuclear Armament for Peace

World peace is an important matter for the people of this world. Peace refers to a non violent and friendly relationship among the different countries and its people. A peaceful environment brings out health and joy. As stated in the word itself 'peace' doesn't include violent methods. Nowadays, world peace has become a very difficult struggle. Terrorism includes the use of weapons that can kill millions of people at a time. It is spreading continuously all over the world. Nations develop and buy military weapons but they forget why they are doing it. A number of innocent people and soldiers die due to these armaments.

Often nuclear armaments are used to ensure peace. Nuclear bombs, atom bombs, etc have developed in last few years which can even destroy a whole city due to which people die in huge numbers. This is a matter of great concern. Nuclear armament is not always the solution to peace. Maybe people would get quiet for a period of time but that may not be peace. It also brings a lot of destruction with it.

Violence can be eradicated but not always by violence itself, peace helps in most cases. During the world war, people had to suffer severely when bombs were thrown everywhere and nuclear armaments were used. In my opinion, nuclear armament is not the key to peace but peace can only be brought by peace. As long as the nuclear weapons continue to exist, there will be the temptation to threaten others.

**Isha Goyal**

Wars can never be good for the entire human race. Massive destruction and loss of innocent lives disturbs the functioning of a nation. Instead of declaring war, countries of the world should dialogically and amicably solve their problems, for words seem to have the greatest healing power.

# Religion: The Messenger of Peace

Religion is the opium of masses, used as a drug by the rulers to keep the masses pacified, so that they may not revolt.

Religion separates two communities and creates boundaries among them. I don't think the topic is relevant in our existing conditions. These conditions did not exist once. They were created by the people. Terrorism is a result of this only. The people of different communities are attacking each other. Peace has to evolve as a religion in itself to bring happiness to the world.

**Drishti Jain**  
VIII A

Everyone has a right to follow their own religion in their own style. Every religion teaches love, faith and brotherhood. If we follow our religion in true faith, there never would be a reason to fight. The problem arises when religions are judged, called superior over another and forced over people.

## Peace Possibility between India and Pakistan

Peace is an alternative to war. We won't gain anything by wars, they just bring destruction and bloodshed. The power of love is the greatest in the universe. It is derived from the silence and stillness of the nature. Nature didn't create any borders, humans did. Wars between India and Pakistan have only led to the loss of life of innocent people and brave soldiers. I believe that people should practice a religion and follow the path of meditation to bring peace to themselves and to the world.

**Mehak Sharma**

It's not about war. Infact, it was never about it. It was about a change in us. together we stand and divided we fall. Today, if we fight together, we may win but will our victory bring about any more peace? No, it will only worsen the world and kill the innocent. It's time we take up our responsibility and create a harmonious world to live in.

**Jai Arora**

No country can attain a peaceful state until it shuns all its weapons and its intentions of attacking another country. The first step towards transferring this illusion into a state of wellbeing is to accept the healing powers of peace and to practice it within ourselves and spread the message in the world.

**Nitya Bhasin**  
X D

Peace can be an alternative to war if people don't follow the old customs and rituals blindly but are lead by the power of reason. Peace enables all opportunities to gain knowledge thereby doing away with all kinds of ignorance and spreading the message of universal love.

**Aksh Bhardwaj**  
VIII D

Peace is a state of harmony and brotherhood when people live together without fighting or arguing. However, such a state cannot be achieved or maintained forever. Society consists of people-poor and rich, young and old. Different people mean different eyes to look at the same thing and different minds to speak on the same issue. When two thought processes do not match, a conflict is bound to exist. We might see conflicts as deteriorating elements for a society. However, it is the conflicts and differences between the people that bring about a change in our society. Therefore, for progress of society conflicts are in a way necessary.

**Ruchira Agarwal**

No war, no walls means that if there is no rivalry between two groups, there is no need to build a wall to protect each other. There is war between lots and lots of countries these days. If wars continue forever, this world will never find peace. As 'good deeds bring good prosperity', if all countries stop wars and eliminate borders, it will get them a good future. Peace between countries is broken due to anger, ignorance, chaos, agony, jealousy, racial discrimination etc. The world is truly meant to be together and bring peace, justice, happiness, joy etc. Only 10% of the countries have found peace and the rest 90% are full of unimaginable chaos and lots of crisis. In past years after 2000, wars have reduced and many countries have increased in peace level.

Peace is beautiful. We live in a world where every person is fighting for his greed. They don't understand that we have to pay a price for everything. Whatever we give comes back to us. Therefore, we all should love each other and live in peace. After all, love is the strongest power which can beat all negativities. We all have one life so why waste it in hating each other and being hated in return? Love is the only medicine that tastes sweet and heals everything.

## My Poem of Peace

No war can ever be good. For wars can not create anything but death and destruction. They are two sides of a coin. Inner peace is the first step towards a peaceful environment. Only when we shall achieve it within then we would be able to spread the message.

Amidst the violence, amidst the war  
Exists a dove, hope for all.  
Blind folded people hidden in the darkness  
Warriors longing for the peace, forget the brightness  
Peace, an illusion for some, dream for others  
In the arena they forget the meaning of brothers  
Like there is morning to the night  
Like friendship after the fight  
Exists a silver lining of peace in the cloud  
To break the chains of violence that surrounds.

Everyday I look around  
I am looking up, I am looking down  
So much hate in this world  
Why do we sit down and not try to make it right?  
Instead we sit down and see them fight.  
So much hate in this world.  
If we had another chance  
To not fight but to sing and dance  
And rejoice that we are still alive  
Instead of standing by and watching people cry  
We can right the wrongs  
And we can sing more songs  
We can laugh along with the people we love  
With the people we hate  
With the people we discriminate  
So much joy in this world  
If only we could show it.

# My Mantra of Peaceful Life

Peace is something which one cannot buy or inherit but it is to be realized and imbibed. Keeping the mind cool and calm, avoiding unnecessary issues and start believing in oneself are the steps towards peaceful life. For this, meditation and Yoga would work the best.

**Muskan Gupta**  
XI B

I believe the mantra to peaceful life is to be content with whatever one has. This is not something that can be achieved in a single day, week or month. But once it is achieved, it will last a lifetime. Moreover, we need to remember that whatever we do, we should do it for ourselves. There is no need to explain to the world what you are doing as long as it satisfies you.

**Aarushi Gaur**  
XI B

My Mantra of peaceful life is to wake up early in the morning. Whenever something disturbing or annoying happens, I choose to overlook it. Life is all about moving on. We forget a thousand things every day to make the pain in our hearts bearable. Peace is everything, peace is life. Yoga is one of the best methods for a healthy and a peaceful life. Also, for peaceful mind one should spend time in green surroundings.

**Ridhi Sharma**  
XI C

Peace is directly proportional to happiness of life and vice versa. One feels greatest peace when one does something which he or she loves. For me, ultimate source of peace as well as happiness are 'books and food'. The feeling of being lost in someone else's imagination and entangled in yarn of beautiful words is unexplainable. Over eating hurts we know but food would be the positive thing by which I would love to die. In my opinion, words are the best way to express and impress as well. Once you start realizing, it awakens an insatiable hunger of books inside us, which hence brings peace to my mind at least.

To summarise, Eat. Read and Repeat

**Aditi Pal Singh**  
XI B

This is my mantra of a peaceful and happy life. We all have got just one life and we should enjoy it to the fullest. Finding pleasure in whatever you do is all one needs to learn. Life is a kind of blend of everything; whether it is joy or pain, anger or excitement. We should grab all the opportunities that come our way and miss no chance of making unforgettable lifetime memories. Experience is what counts at the end of the day.

**Srishti Aggarwal**  
XI B

There is no mantra of peaceful life. Peace comes from within but philosophy teaches us that keeping expectations low helps a lot. Whether it is from family or from friends, expecting help, love, care, affection only makes it worse for people to stay in peace. Before expecting anything from anyone, you have to give first. Life is a vicious circle, what goes around, comes around. Give love to get love. Same is with the peace. Let people live in peace so that they let you live in peace.

**Priya Sagar**

We have lost our inner peace due to hectic and busy schedule. The anger within grows immensely and our lives have become very toxic. My mantra of life to beat the heat is to do regular meditation, walk and Yoga in the morning. We should give quality time to ourselves to stay away from the negative vibes around us. We should cut down our time spent on the virtual world and give quality time to things which make us happy. Sometimes, we should avoid reacting, as they often say, 'staying silent sometimes is the best thing and can make everything fine'.

# My Mantra of Peaceful Life

A life in which a person has no worries and is always calm, composed and always ready to take new challenges is often an inspiration to others. My mantra of peaceful life is slightly different. My peaceful life shortens to peaceful day- everyday. Starting my morning with devotional songs really helps soothe my mind and makes my soul active to face the challenges of the day. Sometimes, meditating under the wide blue sky with fresh air in early morning can do wonders to our lives. It helps us to concentrate better. To me, a peaceful day is also the one in which I have lived the day to the fullest. I always try to live my day to the fullest so that at the end of the day I should have no regrets. These peaceful days combine together to make peaceful life. Furthermore, fitness is also necessary to maintain balance between body and soul. It reduces our stress, tension and we tend to improve ourselves. Also, listening to Music gives us a good feeling and prevents us from feeling depressed. So that's my mantra for a peaceful life.

**Priyal Goel**  
XI C

According to me, happiness is the best mantra for a peaceful life. Being happy releases good hormones in the body which further lead to change in the mood of the person. Happiness lies in small things like getting a hug from your beloved, buying a new pen, qualifying to the next class, playing with friends, and what not. An optimistic person is able to find happiness in the smallest of things which leads to the betterment of his lifestyle. My mantra has always been happiness and it helps me carry on with my life more peacefully.

**Divyansha**  
XI D

For me, laughter is the most appropriate mantra of peaceful life. Laughter, being a true stress buster, helps me to lead a peaceful life. It's the best cure for stress and depression. It's considered as the best medicine since by laughing we get relief from all our tensions and angers. Laughter brings joy in our lives and makes us relive our childhood days when there was no tension, no stress and no problems.

**Urvashi**

You will continue to suffer if you have an emotional reaction to everything that is said to you. Power is in sitting back and observing everything with peace and logic. If words control you that means everyone else controls you. So, be yourself and ignorant of what others talk about you on your back. Over thinking is an evil which sticks to your mind and forces you to think low of yourself. Be confident and live your life to the fullest which gives peace of mind.

**Kriti**  
XI D

Buildings crumble down, wounded lay still in agony and dead silence stretches as far as one could see. The devastation hasn't been caused by nature but by humans. It has brought down everything and everyone. Rich and poor, plants and animals; all have been treated alike. The air seems to be filled with agony and hatred among people. And yet, there is no sign of peace. A single ray of hope seems to be love; love which has power to change one's soul. Love isn't about lovers only, it's about spreading it far and near among parents and children, to our friends and our foes too. It should be from our heart so that others could feel it too which would automatically lead to a peaceful nation.

**Diya Gupta**  
XI D

Peace doesn't mean absence of war, peace means harmony. The world is full of conflicts even today. Humans will always disagree with each other because of inherently conflicting interests. There will always be a point where people take up arms in the defense of those interests which means that war will always be around the corner waiting for the person or group of people dedicated enough to escalate the conflict. Peace is an illusion because it never lasts. Peace is an illusion because everyone has a different opinion hence peace is an illusion and will remain so.

**Akshat Aggarwal**  
XII A

Peace is an illusion though we would like to believe or wish otherwise.

"When people will no longer make war upon each other, when all people will know nor fear but security will be the time for Peace." Who can believe any of this stuff about a day when the lamb will lie down next to the lion, when the government will really be about serving people and feathering its own nest? Since we know the truth, this peaceful vision is an illusion and a myth.

**Mehul Marwah**

# Peace is an illusion

In today's world, inner peace is the only food for our souls. Each and every person in the society craves for leading a life full of peace but nobody has been able to live it.

We must realize that inner peace and peace in society are the two faces of the same coin. When there is inner peace, there exists peace in the society as well. We need to go beyond the feelings of jealousy, competition, hatred or insecurity to be able to achieve peace.

**Rashmi Narwal**  
XII B

According to me, peace in society equals to a no conflict situation, wherein there are no undertones of hostility or violence. On the other hand, inner peace signifies mind in

the state of Zen i.e. complete calmness.

It has been historically proven that peace in society is a farfetched utopian dream. This is mainly because humans, as individuals lack inner peace. Absence of inner peace causes chaos in the human mind and personality. To seek temporary relief from frustration, we vent out our anger on others. This relief along with the sense of superiority bestows on one a position of intense satisfaction and motivates him/ her to repeat the acts of violence.

**Aditi Mann**  
XII D

Illusion is the word we use to define an idea that is different. Considering peace is an illusion, at least in this century, makes sense. We are never really at peace. We just tell ourselves or rather our brain likes to create a sense of security. I think the idea of peace is something we all should fight for.

Talking about presence of peace, the only reason we have any form of peace nowadays is through the threat of nuclear weapons which if actually used in any significant capacity would result in global nuclear war wiping away most of the humanity. There are simply too many differences in the ideology between different nations and people that the existence of peace is almost impossible.

**Anshika**  
XII B

No, according to me peace is not an illusion. Rather it is a pot of gold well within an individual's reach. This has been exemplified by the lives of Gautum Buddha and Mahatma Gandhi.

It is wrong to define peace only as absence of conflict, hostility or violence in the society. The true essence of peace lies in the calmness of human mind. Peace is when one is at ease with one self.

Although, I admit that attaining peace is a hard nut to crack and requires years of determination and perseverance but it is worth it.

Peace in society may seem like a utopian dream but I do believe that if every human being is at peace then this farfetched utopian dream can become a reality.

**Sanya Khurana**  
XII D

Some say peace is absence of war but according to me peace is when you can hear the voice of your inner conscience, peace is when you stop for a while to praise the beauty of the nature. But does that ever happen? The answer is no. Peace doesn't exist; it is an illusion.

**Kanika Aggarwal**

# No War Can Bring Peace; Only Love Can

Wars are one of the worst nightmares of humanity. In my opinion, it is worse than apocalypse. Wars drain people physically as well as mentally whereas love has the power to heal everything. It is believed that love is more powerful than time. Time might not cure what love can. What is strange is that people think war can finish all the fights. The supreme fights don't put an end to minor fights but it's only the beginning for the next supreme one. It is evident that World War II was a consequence of World War I. Things would have been better if all the grudges were addressed with love.

**Aarushi Mangla**  
XI B

Peace can be defined as freedom from disturbance and passage to tranquility. Peace in the country and the world is the motive and desire of all. Many Institutions are constituted worldwide to stop war and promote peace. It was League of countries after World War I and United Nations after World War II. Peace starts with a smile and as Mother Teresa says, "Let us always meet each other with smile, for the smile is the beginning of Love."

**Ananya Bansal**  
XI C

Lost in the hustle and the bustle of our busy lives, our delight in peaceful times is long lost. We often come across celebrity interviews where, they're questioned about how they spend their quality time in peace and solitude. Out of all, the only mantra that I've inferred and adopted is 'Live and let live'. As I look around myself, I see not beyond the speculative eyes of people, judging every other thing. It amuses me how people try to force each other's opinions on each other, and submissively give into the unspoken rules and formalities of the society. I marvel at the thought of how simpler life would be if people kept their critical judgments to themselves. This may sound funny but in my opinion, this is the reason for most of the atrocities that prevail nowadays. Every community, every religion, every terror group wants to promote their beliefs. But on a personal level, inner peace doesn't require a truckload of efforts-one can find peace even in the tiniest pleasures of life, like wiffing the smell of wet mud on a cloudy evening, slowly sinking into sound of your favourite jam or rather as simple as staring into the blank sky with a mind devoid of thought. Isn't it astounding how something so abundant is yet scarce in our lives?

**Hardika Sethi**  
XI D

If we look at history, we find that war has never brought happiness or peace to both sides of the battlefield. Even the winning side suffers a lot. On one hand, war leads to bitter relations and loss of human resources and love on the other hand binds and unites.

**Khushboo Juneja**  
XI B

"Hell is empty. And all the devils are here", wrote William Shakespeare. And the wars that we wage against each other, proves him true. However, it is not greed, hatred and anger that make us human, but the ability to love that makes the core of our humanity. Many wars have been fought in order to bring peace. It is only through love that peace can triumph. The US invasion of Iraq is a living example of how fighting a war can only bring death and destruction. But loving each other, accepting them with all their flaws and respecting them can bring the peace that we crave for. So spread love, not hatred and encourage others to do the same so that peace rules us instead of war.

## Qu'est-ce que c'est le Patriotisme ?

Servir la patrie est une moitié du devoir, servir l'humanité est l'autre moitié. Écrit par Victor Hugo montre l'idéologie du patriotisme français. Le patriotisme signifie essentiellement l'amour de son propre pays. Un citoyen qui aime son pays et qui lui est loyal à tout prix, même au prix de sa propre vie, est un patriote. Le patriotisme est la grande et désintéressée passion de l'amour pour son pays. Le patriotisme n'est pas un simple amour passif pour le pays. Un vrai patriote, est un ouvrier actif. Il travaille à cœur et âme pour le progrès de son pays et de ses compatriotes. Il prend des mesures pour maintenir la souveraineté et la gloire de sa patrie. Ce changement drastique de notre attitude envers le patriotisme est apparu sur la scène nationale parce que nous, en tant qu'individus, sommes devenus trop égoïstes, trop centrés sur nous et individualistes. Nous ne pensons jamais à aider notre propre pays dans sa croissance et son développement. Cependant le patriotisme est essentiel pour le développement de sa nation. Le patriotisme inspire un patriote à se lever en révolte et à lutter pour la liberté de son pays.

## Qu'est-ce que c'est la Paix

La paix est un temps sans combats ni guerres. Dans un sens plus large, la paix peut signifier un état d'harmonie, calme qui n'est pas dérangé par quoi que ce soit, comme un étang immobile sans chiens. La paix au sein des États et entre eux est un objectif de beaucoup de gens et d'organisations. Une organisation créée pour apporter la paix entre les nations et tenter de faire de la guerre une chose du passé a été la Société des Nations après la Première Guerre mondiale. Quand elle a échoué à arrêter la Seconde Guerre mondiale, elle a été remplacée par les Nations Unies qui essaie de faire paix mondiale. Cela signifie que si un membre est attaqué ou envahi par un autre pays sans attaquer ce pays d'abord, l'autre membre viendra aider le pays qui a été attaqué en premier. Cette idée a été utilisée par les Nations Unies pour défendre la Corée du Sud et le Koweït lors de leur attaque. La paix peut être définie dans un sens positif dans un sens négatif. Positivement, la paix est un état de tranquillité et de tranquillité, cependant, dans un sens négatif, la paix est l'absence de guerre ou de violence

## La Patriotisme

Le patriotisme signifie un amour vrai et un sentiment honnête pour les compatriotes et un travail passionné pour le progrès du pays. Aujourd'hui, nous respirons l'air de la liberté, à cause de vrais et grands patriotes comme Mahatma Gandhi, Subhash Chandra Bose et beaucoup d'autres, qui ont fait de grands sacrifices pour libérer notre pays. La mère et la patrie doivent être les premières et les premières à tous les citoyens du pays. Ainsi, chaque citoyen doit être patriotique envers sa patrie, parce que le pays est tout pour ses citoyens et en retour, les citoyens doivent donner tout ce qui est possible au pays. L'esprit de patriotisme doit être instillé dans l'esprit des jeunes enfants dès le début.

Sans sentiment d'aucune responsabilité, un sentiment de fraternité, de compréhension et de conviction que nous faisons réellement partie d'une famille humaine est en danger. En général, il existe deux types de souffrances mentales et physiques. Beaucoup de champs, mais les problèmes humains fondamentaux restent. Nous devenons si matérialistes et oublions les valeurs humanitaires et nous souffrons de peur et de tension. Humanitarisme est essentiel pour résoudre les problèmes mondiaux, les critiques et les différences. La compassion est le pilier de la paix mondiale. ## QUI EST UNE PERSONNE PATRIOTIQUE ?

Une personne patriotique est celle qui a un profond sentiment de patriotisme. Il est rempli d'amour pour son pays. Si nous regardons l'histoire du monde, nous constatons que les plus nobles héros sont ceux qui ont essayé de bien faire pour leur pays et qui sont morts pour elle. Les hommes se sont battus et sont morts pour leur famille et leur religion, mais les plus grands héros ont toujours été ceux qui ont risqué leur vie pour défendre leur pays. Ach, wie bald

Darum still,  
Füg' ich mich wie Gott es will.  
Nun, so will ich wacker streiten,  
Und sollt' ich den Tod erleiden,  
Stirbt ein braver Reitersmann.

## Frieden und Patriotismus

Frieden in der Welt und Patriotismus sind die Notwendigkeiten. Der Weltfrieden ist eine ideale Situation der Freiheit. Es gibt Ruhe und Glück zwischen den Ländern, aber die Welt hat nichts davon. Streitigkeiten zwischen den Ländern kann man noch sehen. 21. September wird als der Weltfriedenstag gefeiert. Alle Bürger sind patriotisch für ihr Land, aber nicht für die Welt. Als Weltbürger, müssen wir Weltfrieden fördern und unterstützen.

## Meine Idee des Friedens

“Frieden” ist ein häufiges diskutiertes Thema der neuen Generation. Jeder in dieser Welt hat verschiedene Vorstellungen über den Frieden: manche meinen, er kann nicht erreicht werden, weil es eine Anzahl von Religionen gibt und manche meinen, er kann durch Vereinigung der Menschen erreicht werden. Ich glaube, dass Frieden erreicht werden kann, wenn die Menschen wollen. Wenn die Menschen sich vereinen und Weltfrieden gewinnen wollen, kann niemand sie aufhalten. Frieden kann nur durch die Einheit in den Menschen erreicht werden, aber einige Leute denken, dass die Vereinigung mit Menschen unterschiedlicher Religionen nicht passieren kann. Nach meiner Meinung hat diese Menschen Unrecht, weil jede Religion das gleiche Ziel, d.h. den Frieden, hat. Wenn der Weltfrieden erreicht wird, wird sich die wirtschaftliche Lage jeder Nation verbessern, da die Geldmittel für Militär, Waffen, usw. gerettet werden, und diese Geld könnte verwendet werden, um Arme zu ernähren. Also, nach mir, kann Frieden durch die Einheit erreicht werden, wenn die Menschen wollen, und es kann der Zustand von vielen Menschen verbessern.

**Kashvi Agarwal**

Frieden beginnt mit Selbst. Das Ziel von jeden Menschen ist das Glück. Glück ist eine Person, die den Frieden innerhalb hat. Meine Idee des Friedens ist glücklich und zufrieden zu bleiben mit dem, was Gott uns gegeben hat.

Wir sollten nicht kämpfen, sagen böse Worte und Menschen verletzen, anstatt sollen wir geduldig sein und den Menschen helfen. Frieden ist die Mutter von dem Wohlstand. Ohne Frieden kann eine Nation nicht vorankommen. Wir leben in einer globalen Welt und sind miteinander verbunden. Terrorismus in einem Teil der Welt betrifft Menschen und Land in einem anderen Teil der Welt.

Ich glaube, dass Menschen auf der ganzen Welt folgen sollte, um die Kultur des Friedens innerhalb und außerhalb des Landes zu entwickeln. Dies wird uns glücklich in dieser Welt leben können.

Es lebe der Frieden in der Welt!!!

# Weltfrieden

Weltfrieden ist der Ausdruck von dem Idealzustand eines Weltweiten Friedens, das bedeutet für das Ende aller Feindseligkeiten und aller Kriege also der andauernden Kriege und Konflikte. Er beinhaltet dauerhafte Freiheit, Gerechtigkeit und Glück für alle Menschen. Das gilt oft als höchstes Ziel aller Politik und Wissenschaft. Es wird von der internationalen Friedensbewegung, von Einzelpersonen, Nichtregierungsorganisationen, Gruppen und Parteien auf vielfältige Weise angestrebt. Andere sehen darin als eine unerreichbare Utopie.

Es ist für mich  
Ein Lächeln, ein Lachen,  
Ein Vogel fliegen frei  
Bleiben wie Sie wollen  
Egal was Sie sagen  
Frieden ist ein Gefühl  
Nicht ein Befehl zu gehorchen  
Sie können Frieden in einem tobenden Kampf fühlen  
Wie kann man Angst in einem Feld voller Gras fühlen  
Frieden muss bleiben, um ewig zu sein  
Angst muss ein Ding der Vergangenheit sein.

**Aditi Choudhary**

Der Weltfrieden ist bedroht,  
Terror bringt die Welt in große Not.  
Und man kann es gar nicht glauben,  
Menschen die sich auf Gott berufen,  
bringen Leid und Tod.  
Wieder einmal müssen wir erfahren,  
wie Fanatiker, die sich Gotteskrieger nennen,  
mit Haß und eigenen Gesetzen die Welt anbrennen.  
Sie haben die Botschaft Gottes nicht verstanden  
dem wir alle unser Leben,  
und die Schönheiten der Natur verdanken.  
Nächstenliebe, Toleranz, Friedfertigkeit  
sind die Pfeiler dieser Botschaft,  
nicht Terror, Mord, Zerstörung  
wie es nur ein krankes Hirn, ein Fanatiker schafft.  
Sie töten rücksichtslos und ohne Sinn  
und glauben, dass Gott sie noch dafür belohnt.  
das zeigt doch nur, welcher negativer Geist in ihnen wohnt.  
Sie rufen aus den heiligen Krieg,  
als ob ein Krieg je heilig sein kann,  
das ist nicht in Gottes Sinn,  
im Gegenteil so fängt Gottlosigkeit an.  
Laßt uns für diese Menschen beten,  
dass ihnen Erleuchtung widerfährt,  
dass sie nicht auf der Stelle treten,  
dass Gottes Liebe, ihren Fanatismus aufzehrt.  
Dass sie begreifen,  
dass keine Religion und Rasse bei Gott bevorzugt wird.  
Bevorzugt werden Menschen die in seinem Sinne leben,  
Vorbild sind, ihren Nächsten Halt und Stütze geben,  
nicht den Krieg sondern den Frieden leben.

Ich höre, ich fühle das Gefühl seiner Mutter  
Wer sein unschuldiges, schönes Kind verloren hat  
Ich höre, fühle das Gefühl des kleinen Kindes  
Wer aufwacht und weint nachts mit der Furcht  
Ich höre, der Lärm von vielen Menschen  
Die verloren ihre lebenswerte und fühlen sich  
einsam mit ihren Erinnerungen  
Ich höre, ich fühle die Straßenbettler  
Wer im Winter zitterte  
Es tut mir leid für alle  
Ich konnte nicht versuchen, den Völkern zu helfen  
Ich weiß, dass Zukunft aus Gegenwart und  
Gegenwart aus Vergangenheit gemacht wird

# Alumni Speak

When a student carves a niche for himself, in this competitive and unforgiving world, he often gets overtly consumed, and is oblivious of those who helped him learn.

Of those teachers who have mentored him, and continue to do so, who worked tirelessly to groom him, so that he can acquire a skill or two.

Of the one principal he has admired, since he was very young, under whose direction, he has become a better human.

Students come and students blossom away, The thoughts and actions that nurture them remain unseen, They are in the background, they made him shine, He attained glory and they stood behind.

So I turn the spotlight today, On those who are not often credited on the silver screen, No 'thank you' is enough for these beautiful people, Only gratitude I have for those behind the scenes.

"All grown-ups were once children... but only few of them remember it." I feel that I am lucky to be one of those few. Thanks to my school, for not only it gifted many beautiful memories but also, it blessed me with teachers and friends who till date inspire me to be at my best in whatever I do, who do not let me forget the infinite dreams of the past and infinite possibilities with life, who do not let me forget my strengths and potential when the world out there seems really tough, who do not let me lose the wonder and beauty of the child's heart!

There are certain milestones in life that help you prepare for this uncertain journey of life and your school life is one of them. I still remember those days when I used to look up to my teachers for all the guidance which was given without fail and always. The carefree atmosphere, the secure environment and a friendly treatment by one and all is what comes to my mind when I remember those wonderful years spent in the school with nostalgia today.

I am holding a responsible position in an International Bank today and can sincerely boast that whatever I have achieved today could not have been possible, had I not been a part of this great institution that has given me the wings to soar high in life. ## *All I want is my Land in Peace*

Once I lived in a land of dreams  
The violets blue; the skies cream  
The dreamy shrubs all oozing gold  
Alas! It was a sight to behold!

Gorgeous men with big good hearts  
With beautiful women driving carts  
Lovely kids playing by the plateau  
The paddy all ready and even the potato

The weaver with those godly skills  
The hunter with the witty kills  
The potter simply shaped miracles  
The farmer & crops at pinnacle

But then came that boon of god  
The gorgeous man slyly guffawed  
The hunter needed blood some more  
The potter's sand now full of gore

The crop was now cut by sword  
The human now; self made Lord  
The lovely scene; now in a big chill  
They wanted the top of the Cosmos' hill

My land of dreams now waging wars  
Ravaged women; leaving scars  
All brethren against each other stood  
They wanted to conquer flesh and wood

All I know I lived in a land  
The golden bird with golden sand  
No kith or kin nor nephew-niece  
All I want is my land in Peace...

It gave me the exposure and confidence to stand head to head and face the world; A strong base in education and humanity which made me what I am today. I can never thank enough to this institution and my faculty for building me.

When I look back over the last 4 years, I remember sending a timid, meek, wimpy kid to the school who has now blossomed into a dignified and diligent girl, oozing with confidence and the willingness to improve her own set of skills. She has been provided periodic opportunities to sharpen her language skills and presentation skills because of frequent participation in school events. I thank the teachers of Bal Bharati who have played their part with utmost perfection. I owe this to you all.

Schools are meant to develop active citizens, helping children develop their own capacity for personal achievement and contributing to society as an active citizen for democracy. Schools are also supposed to teach children all that the human civilization has learnt over the ages. There are several ways of teaching and BBPS inculcates the various learning patterns as some children learn by looking, few by hearing and explaining, and few understand things by doing activities. Science Education being promoted here involves several experiential techniques and activities evoking the creativity and innovation in the child addressing the key social and environmental problems today's mankind face. The school thus offers an integrated and holistic development of my child with knowledge, skills and creativity.

BBPS, Rohini has been playing its role as a nation builder to perfection for many years. I have been in touch with the school for the past fourteen years, as a parent of two young daughters ready to capture the world with their courage, wit and intelligence. In all these years I have seen my daughters doing very well not only in academics but also in co-curricular activities and developing into confident persons with a lot of self belief. I have no qualms in admitting that their growth can largely be attributed to the environment offered by the school to help children blossom not only in academics, but also in other spheres be it sports, co-curricular activities or arts. It has instilled strong moral and ethical values in the children. The thing which I have liked the most about the school is that it has no canteen which not only discourages children from having junk food but also prevents them from getting an inferiority complex, since the school admits children from varied strata of the society. In the end, I would like to wish the school well for the future so that it can develop the next generation, full of self esteem and morally upright.

Bal Bharati Rohini has lived upto the expectations that any parent can have from a school. The holistic education is part of life here. There's this right blend of focus on studies as well as other curricular activities, sports, hobby clubs, music and art lessons. French and German language as option for third language open up new horizons for children and prepare them for an international exposure.

समाज में व्यक्ति अपने आचरण से ही पहचाना जाता है, साथ ही यह भी निभ्रान्त और परिक्षित सत्य है कि व्यक्ति के सदाचरण और व्यवहार का निर्माण उसकी परोक्ष-प्रत्यक्ष शिक्षा के द्वारा ही होता है। शिक्षा भी ऐसा तभी कर सकती है, जब उसके कुछ अपने नैतिक मान और मूल्य हों। नैतिक शिक्षा व्यक्ति में सहज मानवीय गुणों को उजागर करने में निश्चय ही बहुत अधिक सहायक हो सकती है वह संचय, अनुशासन, चारित्रिक दृढ़ता, निर्भरता, अटूटता आदि का संचार कर सकती है। इसलिए विद्यार्थी आप अपने चरित्र निर्माण को महत्व देते हुए देश को गौरवशाली एवम विकसित राष्ट्र बनाने में अपना योगदान दें। विपदाएं और रूकावटें बाहरी हस्तक्षेप हैं। यदि हम समाधान के मोर्चे पर संकल्प वान बनें तो समस्याएँ जीवन को तोड़ नहीं पाएंगी और तभी हमारी शिक्षा तथा हमारा शिक्षित होना साकार होगा।

शांति में बल बहुत ही ज़्यादा  
अगर न बदलो अपना इरादा  
शांति, अमन और भाईचारा  
अब हो विश्व का नारा

तभी शांति के गुण सब गाते  
शांति से मिल-जुल कर रहना  
यही मनुष्यता का है गहना  
शांति से खुशहाली आती  
लड़ाई-झगड़ा घर न लाती  
शांति करती क्रोध को दूर  
और अभिमान को चूर-चूर  
अब हाथ लो सब शांति की ओर  
और बढ़ें प्रगति की ओर  
महात्मा गाँधी ने अपनाया शांति का रास्ता  
तभी उनमें है विश्व की आस्था

## भारत-विश्व शांति दूत

## सम्पादकीय

किसी कवि ने आज विश्व की गंभीर और अशान्त स्थिति पर विचार करते हुए लिखा है—

जान पड़ता है सब संकट बिसार कर  
मानव है नाश के कगार पर,  
जागी है उसमें पाशिवकता,  
देखता नहीं है कुछ वृद्ध, बाल।

मनुष्य को स्वार्थ ने जकड़ लिया है। अपनी अपनी अपार शक्तियों का परिचय देने के लिए वह अशान्तमय और भयानक वातावरण का निर्माण करने पर लगा है। आज जब हम महात्मा गाँधी के जीवन तथा शिक्षाओं को याद करते हैं, तो हम उनके विश्वव्यापी दृष्टिकोण के पीछे अपनी प्राचीन संस्कृति के मूलमंत्र उदारचरितानाम्तु वसुधैव कुटुम्बकम् अर्थात् पृथ्वी एक है और हम सभी इसके नागरिक हैं को पाते हैं उनका कहना था कि एक दिन आएगा, जब शांति की खोज में विश्व के सभी देश भारत की ओर अपना रुख करेंगे और विश्व को शांति की राह दिखाने के कारण भारत विश्व का प्रकाश बनेगा।

शालिनी सिंह,  
हिंदी अध्यापिका (पी आर टी)

विश्व शांति सभी के बीच और भीतर स्वतंत्रता, शांति और खुशी का एक आदर्श है। यँ तो 'विश्व शांति का संदेश हर युग और हर दौर में किया गया है, लेकिन इसको अमल में लाने वालों की संख्या कम रही है। कनाडा के प्रधानमंत्री स्टिफन हार्पर ने कहा है कि एशियायी देशों में भारत की विदेश नीति मैत्रीपूर्ण है। भारत संसार में शांति चाहने वाले देशों में प्रमुख है। "पंचशील" भारत की अंतर्राष्ट्रीय नीति का आधार है। जिसके अनुसार प्रत्येक देश अपनी इच्छा व परिस्थिति के अनुसार अपनी राजनीति व समाज नीति चलाये। सारे संसार में कुछ ही देशों का दबदबा देखकर भारत व कुछ समान विचार वाले अन्य देशों ने गुट निरपेक्ष राष्ट्रों का संगठन बनाया ताकि कोई देश अन्य शक्तिशाली देश से दब न जाए और स्वतंत्र रूप से अपने विकास के कार्यों में जुट जाए।

## शांति (खुशियों का खज़ाना)

एक बचपन का ज़माना था  
जिसमें खुशियों का खज़ाना था  
हुए झगड़े के बाद सबको शांति से मनाना था  
घर बनाने में वक्त लगता है  
पर मिटाने में पल नहीं लगता  
शांति बड़ी मुश्किल से बनती है  
पर झगड़े में वक्त नहीं लगता  
हर तरह का वक्त आता है  
पर वक्त गुज़रने में वक्त नहीं लगता  
सबको झगड़े का वक्त लगता है  
पर शांति का वक्त नहीं लगता।।

## शांति से हर कार्य संभव है, झगड़े से नहीं

गौतम बुद्ध सदैव शांति के मार्ग पर चले, व महात्मा गाँधी अहिंसा के मार्ग पर चले। जब हम गुस्से में होते हैं तब हम समझ नहीं पाते हैं कि हमसे क्या भूल हो रही है। हम अपशब्द बोल जाते हैं जिस से रिश्ते टूटते हैं। सम्राट अशोक जब हिंसा के मार्ग को त्याग कर अहिंसा के मार्ग में चलने लगे तभी वे पूरे भारत के सर्वश्रेष्ठ योद्धा व राजा कहलाए गए।।

## मन की शांति-

आज के आधुनिक युग में लोगों की जीवनशैली बेहतरीन हो गई है। वे अच्छा खान-पान, पहनना-ओढ़ना, मोबाइल, कंप्यूटर आदि का इस्तेमाल कर रहे हैं। परंतु मन में शांति नहीं है। यद्यपि आदमी जो कमा रहा है, वह उसके लिए बहुत है परंतु फिर भी पैसा कमाने के लिए अंधी दौड़ है। जीवन बड़ा ही व्यस्त और भाग-दौड़ भरा हो गया है। यहाँ ना तो शारीरिक, ना ही मानसिक स्थिरता है। बस एक-दूसरे से आगे निकलने की होड़ है। लोगों के मन में ईर्ष्या पैदा हो गई है, जो इंसान को अंदर ही अंदर खाए जा रही है। मन की अशांति का कारण सामाजिक वातावरण भी है। पहले लोग मिल-जुलकर रहते थे। और अपने मन की बात एक-दूसरे को बताकर शांत हो जाते थे परंतु आज के एकाकी परिवार में जीवन जीने वाले लोग अपने में ही घुट जाते हैं।

वास्तव में मन की शांति ही जीवन का आधार है। संतुष्ट जीवन के लिए शांति ही सबसे बड़ा हथियार है।।

## शांति, अमन, भाईचारा अब विश्व का नारा

शांति, मधुरता और भाईचारे की वह पूंजी है, जिसे पाने के लिए मनुष्य अपना जीवन न्योछावर कर देता था। लेकिन अफसोस आज इंसान दिन पर दिन शांति से दूर होता जा रहा है। महात्मा बुद्ध और भगवान महावीर ने भी यही संदेश दिया है कि शांति और अहिंसा हमें हमेशा अपने जीवन में रखनी चाहिए, इसी अहिंसा के साथ महात्मा गाँधी जी ने हमें गुलामी की जंजीरों से स्वतंत्र कराया।

## भय से उत्पन्न शांति स्थाई नहीं होती-

शांति एक भाव है, एक एहसास है  
जिसमें भी दिल है, उसके यह पास है  
मन में तुम निश्चय करो, शांति है फैलानी  
भय का रास्ता छोड़ के, बनो शांति के सैलानी  
डर लाता है दुःख, और हर माँ है रोती  
भय लाता है अशांति और बनता है हिंसा की नींव  
भय नहीं चाहता कोई भी, अमन और शांति चाहता है हर जीव  
भय के होते हैं हजारों हाथ  
परंतु हमें चाहिए शांति का साथ  
शांति ही है हर प्रगतिशील समाज का बीज बोती  
भय से उत्पन्न शांति कभी स्थाई नहीं होती  
भय देता कुछ नहीं, यह लेता है मासूमों की जान  
लेकिन हर व्यक्ति के जीवन में बोता है शांति का स्थान  
भय रूलाता है, भय दबाता है  
शांति का एहसास ही सबका जीवन बनाता है  
भय के अंधकार में शांति की जलाओ ज्योति  
भय से उत्पन्न शांति कभी स्थाई नहीं होती  
भय का कुँआ छोड़ कर पकड़ो शांति की डोर  
यही एक मार्ग है जो जाता है प्रगति की ओर  
डर-डर के जीवन जीना ही है व्यर्थ  
शांति लाती है उजाला, पर भय है असमर्थ  
भय के इन काँटों से ना टूटने दो शांति का मोती  
क्योंकि भय से उत्पन्न शांति कभी स्थाई नहीं होती ।।

## “मुझे प्रकृति से प्रेम हो गया।”

जा रहा था मैं एक  
पहाड़ से होकर,  
हुआ मैं आश्चर्यचकित  
वहाँ के सौंदर्य को देखकर।  
मुझे प्रकृति से प्रेम हो गया।  
पेड़ों की वहाँ गुंजन थी,  
और हँसते-गाते पक्षी  
सुनहरे पेड़ पर  
थे बैठे।  
सूरज की किरणों से,  
वह एक सुनहरे जहान  
सा लग रहा था।  
चारों ओर हरियाली में  
मेरा मन गा उठा  
मुझे प्रकृति से प्रेम हो गया।  
था एक गुलाबी-फूल  
वहाँ मन मोह लिया  
जिसने मेरा।  
मन करता था वही  
धम जाऊँ,  
और वहाँ के सौंदर्य  
को निहारता रहूँ।  
मुझे प्रकृति से प्रेम हो गया।  
समय कम था और  
जाना मुझे भी दूर था,  
मैं इसी दुविधा में  
पड़ गया।  
मुझे प्रकृति से प्रेम हो गया।

## दुबक के बैठी कोने में, ‘मैं, अँधियारा छाया है,

इतना क्रूर विधाता ने मानव को क्यों बनाया है?  
गोली-बारी, आतंकी हमलों ने छीन लिया सुख-चैन  
आँखें झुलस उठी मेरी, मैं क्यों हुई बेचैन?  
'भारत महान' के नारों से गूँजा करती थी यह धरा  
आज न जाने पीड़ा से हृदय मेरा क्यों है भरा?  
खून-खराबे के मध्य धुँधला गया बचपन मेरा,  
जहाँ खेला करती थी मैं, लगा है लाशों का ढेरा।  
अनंत रक्त बहा रहे, मेरे देश के वीर जवान,  
गाकर राष्ट्रीय गान ही क्यों न रख लूँ उनका मान?  
बंदूक तानकर खड़ा है मेरे सर पर यह मनुष्य कठोर  
मुरझाए रिश्ते, फीका प्रेम, नाजुक-सी रिश्तों की डोर।  
युद्ध-लड़ाई ने छीन ली मुझसे मेरी माँ,  
बंद करो यह खून की नदियाँ  
शांति लाने में लगती हैं सदियाँ.....।।

## एकता में बल

‘एकता’ में अपार शक्ति होती है। एकता एक प्रबल शक्ति है। यह वीरता और बलिदान के कार्यों को बढ़ावा देती है और जनता में आत्म-विश्वास उत्पन्न करती है। यह देशवासियों को उन्नति के पथ पर आगे बढ़ने की प्रेरणा देती है। संसार के अनेक राष्ट्रों ने एकता की भावना से प्रेरित होकर अभूतपूर्व उन्नति की है। एकता, जनता को व्यक्ति और समाज, दोनों के रूप में प्रोत्साहन की प्रेरणा देती है। भारतवर्ष एक विशाल देश है। भारतीय सभ्यता एवं संस्कृति के विकास का इतिहास बहुत लम्बा और उत्थान-पतन की घटनाओं से भरा है। भारत अनेकता में एकता का देश है। इसके अंदर भौतिक विषमताओं के साथ-साथ भाषा, धर्म, वर्ण में भी विषमता पाई जाती है। एक धागे को छोटा बच्चा भी तोड़ सकता है। एकता से प्राप्त होने वाली सफलता का शानदार उदाहरण पेश करती हैं चीटियाँ। वे मिलजुल कर हर कठिन काम को आसानी से कर लेती हैं। अब हमें अपनी आज़ादी की रक्षा के लिए आंतरिक संगठन और भावात्मक एकता के महत्त्व को समझना अति आवश्यक है। यदि हम प्राचीन एवं मध्यकालीन इतिहास पर नज़र डालें तो ज्ञात होगा कि एकता के अभाव में ही भारत को समय-समय पर विदेशी आक्रमणों और लूट-पाट के आघात-प्रतिघात को सहना पड़ा।

## कविता—

हँसते—गाते घुमना चाहते हैं वो पक्षी,  
आसमान को नापना चाहते हैं वो पक्षी।  
नदी में गुंजती है आवाज़,  
जैसे पक्षी देते हों आगाज।  
पेड़ पर बैठे, लेते हैं वो छाया,  
पर यह सब कुछ, है तो माया।

## प्रकृति का रूप महान

सूरज की है धूप सुनहरी  
कोयल का है गीत सुनहरा  
पेड़ देते हैं हमें छाया  
गुलाब की है अद्भूत माया  
पक्षियों का गुंजन करता है मनोरंजन  
पहाड़ है विशाल जो करते हैं कमाल  
नदी का स्वर है अद्भुत,  
गुलाब करे सबको मुग्ध।  
हरियाली है सुंदर ख़ाब  
परंतु जीव—जंतु हैं नवाब  
करते हैं वे प्रकृति पे प्रहार  
क्योंकि समझते हैं वे उसे बेकार!!  
प्रकृति है बड़ी मूल्यवान  
जो बनाती है हमें धनवान,  
प्रकृति हमारी माता है  
और हम उसकी संतान  
जो देती है हमें एक नई पहचान,  
उसकी रक्षा हमारा धर्म है,  
उसे बचाना सबसे बड़ा सत्कर्म है,

## कुछ मन की

चले हम हँसते गाते,  
 यूँ ही नदी के किनारे,  
 कुछ पल जिंदगी के नाम,  
 दोस्तों के साथ एक शाम,  
 पक्षी उड़ते हुए गाते,  
 पहाड़ों से करते बातें,  
 फूल खिले वो रंग-बिरंगे,  
 खिली धूप में नाचते-गाते,  
 कोयल वह उस पेड़ पर बैठी,  
 अपनी सखा से फुसफुसाई,  
 "चलो आज आसमान छू लें,"  
 आज ऐसे जियो,  
 जैसे कोई कल न हो,  
 आज ऐसे जियो,  
 जैसे आखिरी हो।

## ईमानदारी बुलाती हूँ तुम्हें चल सको तो चलो मेरे साथ

पैर मेरे सिर्फ दो हैं  
 एक बार में एक कदम ही चल पाती हूँ  
 कई बार फिसल भी जाती हूँ  
 उसके पैर सुनती हूँ, हैं सौ-सौ  
 वो एक बार फिसलती है  
 फिर भी चल सका तो चलो मेरे साथ।  
 रफ्तार मेरी सुस्त है  
 फिर सुनती हूँ मेरे साथ चलने  
 वालों की हालत भी पस्त है  
 दो जून मुश्किल से जुटा पाते हैं  
 कभी-कभी भूखे पेट ही सो जाते हैं,  
 फिर भी चल सको तो चलो मेरे साथ  
 लोग कहते हैं मैं हूँ कठोर-हृदय  
 हैं पर स्पन्दन नहीं शरीर है उच्छवास

नहीं-बन जाती है कई बार गले का पत्थर  
 क्या करूँ फितरत ही कुछ ऐसी है  
 फिर भी चल सको तो चलो मेरे साथ।  
 मुझे साथ ले चलने वालों का  
 इतिहास भी है उज्ज्वल  
 पर आजकल ज्यों कीचड़ में कमल  
 जाने कब गर्त हो जाऊँ  
 फिर भी चल सको तो चलो मेरे साथ  
 मुझे साथ ले लो मुसीबत में काम आऊँगी,  
 बेच देंगे तो क्या बन जाओगे  
 बस एक बार आजमा कर देखो  
 एक बार हाथ बड़ा कर तो देखो।।

## परेड

आसमान में रोशनी सी आई  
 अँधेरी में उजाला हो उठा;  
 ऐसा लगा कोई मशहूर हस्ती  
 आने को है,  
 हरे सिपाही नींद से उठे,  
 हुए तैयार, फैलाए बाँहें  
 पक्षियों ने उड़ना शुरू किया,  
 कोयल ने अपना भोपू बजाया  
 पहाड़ों ने रास्ता बनाया  
 विशाल सूरज आसमान में आया  
 फूलों ने माहौल बनाया  
 अपनी सुगंध हर ओर पहुँचाई  
 मनुष्य ने सूर्य को नमस्कार किया  
 सूर्यदेव ने उसे आशीर्वाद दिया  
 सारा जगत उठ गया था  
 अब सवेरा हो गया था!!

प्यारी माँ, न्यारी माँ,  
 तुम हो कितनी न्यारी,  
 लगता है तुम ईश्वर,

 तुम दिल को कितना भाती हो,  
 मेरे लिए कितने उपहार लाती हो,  
 दिन गए पर प्यार ना गया,  
 हर दिन तुम्हारा है एक रूप नया।  
 तुम ही मेरे जीवन की शुरुआत,  
 तुम ही इसका अंत,  
 तुम हो मेरा खजाना,  
 मुझे छोड़ कर तुम कभी ना जाना।।

## भारत विश्व शांति दूत

विश्व शांति सभी देशों और लोगों के बीच उनके अन्दर स्वतंत्रता, शांति और खुशी का एक आदर्श है। विश्व शांति पूरी पृथ्वी में अहिंसा स्थापित करने का एक माध्यम है। शांति के द्वारा युद्ध को रोका जा सकता है। विश्व शांति के द्वारा सभी व्यक्तियों के बीच दुश्मनी समाप्त की जा सकती है। भारत एक ऐसा सांस्कृतिक विरासत और आदर्श वाला देश है जो कभी भी किसी का अहित नहीं करना चाहता।।

## शांति से हर काम संभव होता है, झगड़े से नहीं

शांति से हर कार्य संभव है। शांति से किया गया कार्य हमेशा उत्तम होता है। शांति का दूसरा नाम विवेक है। शांति से रिश्ते स्थिर व मज़बूत बनते हैं। प्रभावशाली व्यक्ति हमेशा शांत होता है। शांति सबके जीवन में खुशियाँ लाती है।।

**"ऊँ शान्ते मनसि अपूर्वा आनन्दाभूतिः"**  
**"शांति से हर काम संभव है झगड़े से नहीं"**

यह कथन पूर्णतः सिद्ध है। अनेकता में एकता और विश्व का सर्वश्रेष्ठ लोकतंत्र हमारा यह भारत देश है। प्रारम्भ से ही शांति और बन्धुत्व का समर्थक तथा प्रचारक रहा है। महाभारत काल में श्री कृष्ण ने हर संभव प्रयास किया कि शांति और सर्वसम्मति से कौरवों तथा पाण्डवों की समस्या हल हो जाए। वे इसके लिए शांतिदूत बनकर दुर्योधन की सभा में भी गए। महात्मा गाँधी महोदय तो अहिंसा और शांति को मूलाधार बनाकर ही नवयुग के प्रणेता बने। इसी प्रकार फिर चाहे वो श्री नेल्सन मंडेला हो या मदर टेरेसा या फिर श्री ओबामा महोदय ही क्यों न हों इन सभी का नेतृत्व लोकप्रिय रहा क्योंकि इन्होंने शांति और सौहार्द का संदेश विश्व हेतु प्रसारित किया। हमारे भारतवर्ष के वर्तमान प्रधानमंत्री श्री नरेंद्र मोदी महोदय भी शांति एवं विश्वबन्धुत्व के प्रबल प्रचारक हैं। यह सत्य है कि 'युद्ध' से समस्या का शीघ्र 'अंत' हो जाता है, किन्तु 'शांति' से ही समस्या का बिना जन-धन की हानि के 'पूर्ण समाधान' संभव हो पाता है।

**रिषिता मेहरा

## भारत विश्व शांति दूत

इस संदेश के माध्यम से मैं आप सबको यह बताना चाहती हूँ कि शांति जीवन की मूल चीज़ है। पंडित जवाहरलाल नेहरू ने विश्व में शांति और अमन स्थापित करने के लिए पाँच मूलमंत्र दिए थे। इन्हें पंचशील के सिद्धांत भी कहा जाता है। यह पंचसूत्र मानव कल्याण तथा विश्व शांति की स्थापना के लिए विभिन्न राजनैतिक तथा आर्थिक व्यवस्था वाले देशों में पारस्परिक सहयोग के पाँच आधारभूत सिद्धांत हैं। भारत सदैव अध्यात्मवादी और शांतिप्रिय राष्ट्र रहा है। भारत "वसुदेव कुटुम्बकम्" तथा सर्वे भवन्तु सुखिनः सर्वे सन्तु निरामयाः की कामना करने वाला राष्ट्र है जिसकी मूल भावना शांति स्थापित करने की है।
