Dear Parents

We extend our gratitude to the parent community for smooth conduct of offline Preboard-I scheduled from 1st March, 2021. The duly checked answer sheets are being shared with the students without delay to facilitate identification of individual gaps in understanding, application and expression. We are hopeful that the students have now gauged their capabilities and have hence identified areas in which they require more effort. The school is conducting Preboard-II commencing from 25th March, 2021 to give one more thorough practice of writing a three hour exam, while providing one more opportunity to the students to revise their entire syllabus for the SSCE and SSE exams.
