***“Too often we give children answers to remember rather than problems to solve” Roger Lewin***

Dear Parents,

Welcome to the new session 2021-2022.

The advent of new session is always brimming with excitement and happiness. Our children graduate from one grade to another and we marvel at how time passes by ever so quickly. Listening to the children's chatter and cheer on the day of Result Declaration recharges us and we brace ourselves with rejuvenated minds and hearts to start the new session. Unfortunately, this cycle has been disrupted with the pandemic year clouding our lives with despairing distances. However, refusing to stay in the shadows of yesterday any longer, I invite you to the bright and better world of tomorrow.

As we step into the new session 2021-22, I implore you to join me on this new exciting journey of reinventing Education for our children with innovative and path breaking National Education Policy (NEP) 2020. NEP 2020 is not just a guiding document but a mission for educators. The main focus of the policy is the revolutionary shift from '**Marks driven Education System**' to '**Learning for Life Education system**'. And, it is imperative that this shift happens in the mindset of all stakeholders: parents and community alike. Therefore, you as parents must also support initiative aimed towards holistic development rather than focussing primarily on scoring marks.

The document also reiterates that learning doesn't happen only at schools; it happens at homes too. Your awareness and engagement are crucial to the progress of your child. After all, Education is about living well. Let's ensure that our children are ready for all the challenges of life when they step out of protected and pampered environs like school and home. We must strive to bring them out of these sanitised and manicured bubbles wherein they tend to become complacent and fragile. The real world is full of sweat and hardships, dust and slums, underprivileged and disadvantaged. They must be ready to live around these truths of life and work towards the betterment of society along with their own professional growth. Notice whether your child has learnt Inter personal skills to solve day to day problems of their lives by asking questions like- *'Does my child have constructive approach? How well does he collaborate and cooperate?'*

We strive to scale the heights of excellence with your proactive engagement and encouraging support in guiding the children on their journey of self-discovery and learning for life.

Welcome to the New session 2021-2022.

Regards  

GEETA GANGWANI
