RECREATIONAL ACTIVITIES

30 September, 2021

Dear Parents

"Optimism is the faith that leads to achievement. Nothing can be done without hope and confidence." -- Helen Keller

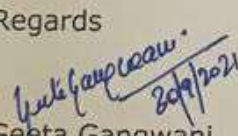

Hope and faith have been the key elements of our existence in today's testing times. We have come a long way managing this phase and continue to ensure that the learning never stops, despite the odds we had born in mind about the central ideology of early learning. It is about learning through open-ended play activities that allow children to develop at their own pace. Every child learns to communicate with his or her facilitators and fellow students.

The skills and knowledge that the child develops throughout the initial years of education have a great impact on his or her aptitude and attitude later in life. We at Bal Bharati, believe in providing a plethora of developmental activities for our students aiming at their overall development and helping them to acquire various self-help skills through joyful learning.

The school is initiating various recreational activities for providing the children with hands-on learning to ensure their overall well-being from 1 October, 2021, as per the schedule which will be shared by the class teachers.

Kindly ensure that your ward attends these sessions.

Regards

Geeta Gangwani

Principal
