“The very sound of Sanskrit words gives a prestige and a power and a strength to the race.”- Swami Vivekanand

Dear Parents

Sanskrit is an ancient Indian language, that is a repository of knowledge. The importance of learning Sanskrit can be discussed with the amount of knowledge the language has to offer. From botany, biology, grammar to religion and astronomy – the language has texts written in a horde of subjects. Sanskrit is incredibly easy to learn and is the gateway to learning other Indian languages.

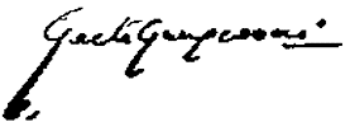

Child Education Society (C.E.S), the apex body of Bal Bharati Public School, in its constant endeavour towards holistic development of its pupils initiated the Sanskrit Shloka Sangraha programme.

With a view of providing our learners with the benefits of this rich language, shlok recital classes have been introduced. The students will be acquainted with the pronunciation and meaning of different Sanskrit shlokas twice a week during the Circle Time.

Students will be encouraged to learn and recite the shlokas. They shall also share their recorded videos on Google classroom

Seeking your cooperation in helping children learn this ancient Indian language that has proven to be of use to us time and time again.

Regards

Geeta Gangwani
