

BBPSRH/Parent/2021-22/144

23 February 2022

Dear Parent,

Hope you and your family is in good health. The session 2021-22 is coming to an end. The session has been unprecedentedly challenging due to the pandemic. However, we could keep connected to our stake holders, thanks to the technology. As we plan the coming session 2022-23, we sincerely hope that the teaching learning environment will be back to normal, in the offline mode and the school will bubble with the cheer of students.

Transport facility has always been extended to the parents to facilitate smooth commuting of students. The school administration is planning to provide transport facility to the students from April 2022 onwards. However, analyzing the prerequisites to provide a smooth transport facility, you are requested to note that the school will run buses only if a sufficient number of students opt to avail this facility and if it is financially viable to run the buses. Number of routes and pick up points will be planned accordingly, after the receipt of parental consent.

We are anticipating a high operational cost and a smaller number of users, hence it is important to note that the transport fee may be around Rs. 3,000/- - 3,500/- per month, for the coming session. In case more students avail the facility, the monthly transport fee may reduce accordingly.

A google form link is being shared to seek your consent for the use of bus facility by your ward. Kindly fill and submit the same by 26 February 2022.

A timely response from your end will be appreciated.
