“Toys are children’s words and play is their language.”- Garry Landreth

Dear Parents

Toy based pedagogy at the foundational stage is where children learn through toys and games because they learn best through play and exploring play material. Educational toys not only foster learning and growth but also give your kids the ability to think creatively.

In alignment with NEP 2020, the school conducted exhaustive Professional Development Programme for teachers in May & June 2022 to facilitate them in creating a variety of toys and games. You will be glad to know that the school has organised a **‘Toy Exhibition’ on Saturday, 16 July 2022 from 8.30 am to 1.00 pm** to apprise the parents about the efforts of teachers in enriching the teaching pedagogy in classroom.

The exhibition will showcase the numerous toys and games created by the teachers as well as students across all disciplines. You are requested to visit the exhibition on the scheduled day while you come to school to attend the PTM.

Kindly adhere to the timings mentioned below to ensure smooth conduct of the PTM as well as the exhibition;

PTM for classes III to V- 8.30 am to 10.30 am

PTM for classes I & II – 11.00 am to 1.00 pm

We seek your cooperation in smooth conduct of the event.

Warm regards

Geeta Gangwani

(Principal)
