**SCHOOL TRANSPORT FACILITY**

This is regarding the school bus services made available to the students, please note that plying school transport for willing students is an extended facility that the school provides for the safety and benefit of stake holders. Plying of school buses needs tremendous planning & administration coordination. Running the school buses with the present number of bus users has been quite a challenge for us in the session 2022-23. It's therefore expected that once the consent is given by parents for availing the school transport, students must avail the facility till the end of academic session i.e. March 2023.

Withdrawals in between the session without genuine explanations & sanctions, make it difficult for the school to run the transport facility smoothly and are hence discouraged.

Parents are requested to take note of this concern and act accordingly.

Seeking your kind cooperation.
