14<sup>th</sup> November, 2022

Dear Parents,

“Choose a job you love, and you will never have to work a day in your life” - Confucius

Childhood is the age when we start wondering about what we want to become when we grow up. It is when the eyes start dreaming, the heart starts nurturing hope and the mind starts believing in these hopes and dreams. In our childhood, we often want to pursue professions that we see on the big screen and even that results in a lot of confusion! That confusion follows us into adulthood as there are a plethora of fruitful fields that interest us. Even though it is perfectly normal to be confused about your profession, having a clear idea does give you an edge over others.

In the ever-changing global scenario, choosing the right career path is essential for using optimal skills for growth and pursuing the desired passion which ultimately leads to happiness. It is our responsibility to prepare our students, such that they walk out of this threshold, equipped with the necessary tools to fearlessly face the world.

To guide the students towards wise career choices, BBPS Rohini is organizing a **Global University Career Fair** on 18<sup>th</sup> November, 2022. This is wherein, a cohort of 25+ coveted Indian and international universities, including but not limited to Bennett University, IIHM, Ashoka University, Les Roches Global Hospitality Education, Ecole Intuit, Indian Institute of Art and Design, will be present to facilitate the students' career choices. This is an exciting platform for students to interact with representatives from universities directly and gather all useful information.
