**19.05.2023**

**Circular**

Dear Parents,

The school is pleased to inform you that the students of class 8 and 9 have been registered on an educational digital platform 'Go Sharpener', for the academic session 2023-24. The platform enables students to learn, express, act and win micro-scholarships for contributions to the global missions including Youth and Child rights, Environmental Conservation, Nutrition and animal Care. Since the school has paid for the registrations in the platform, kindly encourage your ward to participate enthusiastically in the constructive online activities during the summer vacations. Also note that the internal assessments for Science and Social Studies will be done on the basis of participation and achievements of your ward in the activities on the platform. The team from Go Sharpener has already communicated the details with the students in an orientation program for the same on 18/05/23, and the login id and passwords have been shared with the students accordingly. Your cooperation is solicited.

Regards

  
Geeta Gangwani  
(Principal)
