# Academic Achievements **AND** Fun Learning Activities

# ***From the Principal's Desk***

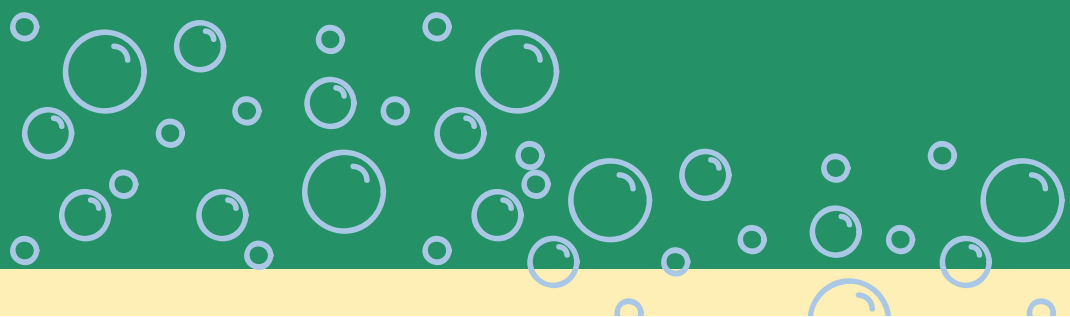

***“A Vision without a strategy remains an illusion.” – Lee Bolman***

With the first edition of this academic year, I seek the opportunity to congratulate you all for yet another successful academic result put together with a collaborated effort of the students, teachers and the parents. The SSCE and SSE result have brought us glory with 12 students securing a 100% score in various academic subjects and an average of 82.08% & 78.78%, respectively. It is indeed an average achievement worthy enough for a batch returning right after Covid. To our reasons of celebration, we also have the mainstream inclusion of futuristic disciplines such as Artificial Intelligence and Painting to our SSE result. As the head of the Institution, I realise, that such achievements do not just happen overnight but require a well thought plan and a seamless execution by the entire team throughout the year. Knowledge Collaboration, Communication and Emotional Regulation are the three main pillars of strategic thinking that lead to success. Knowledge Collaboration, in the journey of academic rigour, had been at its best every time a student learnt in alliance with the teacher, parent and a repository of resources available. Peer mentoring and monitoring augured new perspectives and created simplified and innovative paths through academic problems. Every learner at BBPS RH had developed the skill of writing self-explanatory answers, thereby, communicating all that they had gathered in their academic expeditions. When every student was immersed completely in the bottomless sea of knowledge, an emotional regulation and reassurance from family and friends allowed the learner to stay up and buoyant. An effective preparation, as I see, is not just the work of an individual but of the microcosmic world around the learner. The success, hence, belongs to each one of you for being there at the right time and in the right spirit.

The right training to tread the paths of life starts early and is often absorbed more unconsciously in a well supplemented learning environment than the consciously created efforts. The summer camp at BBPS Rohini is yet another effort in keeping the young minds meaningfully engrossed and leisurely packed. The summer camp not only offers training in various games & sports and yoga by expert coaches but also has activities for grooming life skills such as communication, etiquettes, problem solving etc for the young learners. I hope you all enjoy the highlights of our result and the glimpses of the Summer Camp at school put together as the two most resoundingly essential features of a student's life.

HAPPY READING!

GEETA GANGWANI  
(PRINCIPAL)

# *From the Vice Principal's Desk*

***You are braver than you believe, stronger than you seem and smarter than you think.” —A.A. Milne***

In today's digital and contemporary world, an educational institution's purpose is to inspire and equip its students to be perpetual learners, innovative thinkers, and valuable contributors to a rapidly evolving global community in addition to pursuing academic achievement.

Now, let's take a closer look and give it some thought. It becomes evident that there is a significant difference between memorizing and learning information so that it can be used efficiently in every institution. Also, in order to help students we discover the world of books and the richness of experience, to realize our responsibility for fostering their curiosity and ignite their minds to pierce the skies.

Moreover, we at Bal Bharti School, Rohini, strive for the overall development of our students by giving them the resources and opportunities that inspire critical thinking for them to become more effective learners in the future.

But it's not just the instructors or educational resources that help a student grow effectively; their diligence and perseverance also turn them into proficient learners. Regarding our young children's commitment, I am proud of their outstanding results in the 10th and 12th-grade board examinations. I cannot adequately express my gratitude to the students for this since it demonstrates more than just their desire to impress their teachers that they are capable of contributing to the growth of our nation. Therefore, I also wholeheartedly acknowledge each faculty member for their outstanding contribution and the parents who have continuously helped their children reach this milestone.

I have enough faith in our students to grow more resilient with time and add to the institution's prestige by turning a fresh leaf. I wish them luck in all of their future undertakings.

## DYNAMO ACHIEVERS

### MD. ARMAAN KHAN XII-C (97.2%). COMMERCE OVERALL TOPPER

I am deeply grateful to my teachers and school for their unwavering support and guidance throughout my academic journey. Their dedication to creating an environment of learning and growth has played a pivotal role in my success. The lessons and memories I have gained from my time at school will always hold a special place in my heart, and I will forever cherish them. My mantra for success- "Commitment, Consistency, and Continuous Learning" has been instilled in me by my teachers and school, and it has become a part of my core beliefs. It's not just about getting good grades; it's about staying committed to your goals, maintaining consistency in your efforts, and embracing a lifelong love for learning.

### VRINDA GUPTA XII-D (97%) HUMANITIES

I would like to express my heartfelt gratitude to all the respected teachers and my parents who have guided me and supported me well throughout my journey. My good result was sure a culmination of regular practice, determination, belief in myself and self discipline. I believe that- the harder you work, the luckier you get, so do your part well.

### ANUSHKA XII-B (95.20%), SCIENCE

For 14 years Bal Bharati Public School, Rohini has been nothing less than a second home to me. My journey has been a wonderful one shaping both my academic abilities and my personality. The teachers at school have always been supportive, approachable and caring towards us students, whether it be last moment doubts or sharing their wisdom with us. I will always look back at school and all of my school life memories with fondness and gratitude.

## From the Head Mistress's Desk

***“The body heals with play, the mind heals with laughter  
and the spirit heals with joy.”***

Learning is a lifelong process of transforming information and experience into knowledge, skills, and behaviours. Play sets the foundation for the development of critical social and emotional knowledge and skills. Summer Camp gives an opportunity to the learners to collaborate with each other in a fun-filled manner, socialize and hone their 21st century skills.

To make learning more powerful, 3C's and GEMS programmes were organized to involve the students in a plethora of creative & hands-on activities carefully planned to ensure holistic development of the learners. The programmes focussed on development of communication skills and grooming of students' personalities thus making them future ready.

The students were overwhelmingly involved in the activities and attended all the sessions with full zest. Through this e-newsletter we present before you some glimpses of the enthusiastic participation of the students in the experiential learning activities because we believe that play is fundamentally important for learning!

# From the Head Mistress's Desk

Dear Readers,

We are delighted to share with you the incredible success of our experiential learning camp held during the summer break. This camp was designed to provide a unique and enriching educational experience for our young learners, aligning with the principles outlined in the National Education Policy (NEP).

Throughout the camp, our enthusiastic team of educators and facilitators focused on creating a fun-filled learning environment, fostering a love for exploration, and nurturing the holistic development of our children. By integrating hands-on activities, outdoor adventures, and interactive sessions, we aimed to enhance their cognitive, social, emotional, and physical skills.

Our little adventurers engaged in a wide range of activities, including art and craft sessions, music and dance workshops, and team-building challenges. These activities not only stimulated their curiosity but also promoted critical thinking, problem-solving, creativity, and collaboration.

Underpinning our approach was the recognition that children learn best through active participation and meaningful experiences. By immersing themselves in various real-world scenarios and challenges, our young learners developed essential life skills, such as communication, decision-making, resilience, and adaptability.

We are proud to witness the immense growth and joy our children experienced during the camp. Their excitement, laughter, and eagerness to learn were truly contagious. The experiential learning camp has undoubtedly ignited a lifelong passion for learning and a spirit of exploration within our children.

We extend our heartfelt gratitude to the parents and guardians for entrusting us with the opportunity to nurture and educate their children. Your support and encouragement are invaluable in creating such transformative experiences. Together, let us continue to foster a love for learning, inspire creativity, and empower our children to become confident, well-rounded individuals.
