# SWASTI SHUBHARAMBH

# SATRARAMBH 04 April 2022

The beginning of the new session on 4 April 2022 was marked with Satrarambh. The Principal, staff and the students attended the Havan ceremony, chanted the hymns and began the new session by dispelling the negative and untoward energies. The Principal extended her wishes for a promising new session ahead that would successfully bridge the learning gaps for all the students.

## PRINCIPAL'S MESSAGE

"Life begins when we begin and each day we ought to be born again." Starling W. Sill

As we open the doors of the school to welcome our students after two years of online teaching, we are overwhelmed by the riot of emotions and thoughts. There is great excitement as we eagerly await to see the smiling faces and hear the noisy chatter of the students. The changes and challenges that confront us also make us analyse the situation we are in, try to gain new perspective into reality and make the best of circumstances that we are surrounded with. The process of evolution also similarly reflects the adaptations of organisms to their changing environments. Therefore, as an ardent advocate to unseen and unseen, I look forward to this new session with renewed faith and extensive preparation.

As we reopen, our primary focus will be on the Socio Emotional Learning (SEL) of students. We look forward to renewing the connect of children with peers and teachers. SEL is like the heartbeat of the classroom and therefore, it is imperative to make the children feel safe and secure before we get to the academics. We probably need Education 5.0 – the Human Education which amalgamates the head, hand and the hands with special emphasis on heart.

The other important focus area will be to bridge the learning gaps that have arisen due to physical closure of the school. Although, the online transactions have been undertaken with utmost care, training and pedagogical innovation, yet the learning environment of the physical school could never be replicated. We are targeting to assess the gaps in the expected learning levels & the existing learning levels of the students and will address them in a planned and systematic manner. The idea is not to add immediate cognitive load on students with new content but to have learning as a fun and self-driven activity. Special Bridge programmes have been planned with emphasis on key concepts in all subjects.

While we work tirelessly to make learning environment safer and happier for our children, we seek your kind support and cooperation in all our pursuits and endeavours.

Best wishes for the new beginning.

DEETA GANDWANI  
PRINCIPAL

# **ADAPTATION WEEK 04-12 April 2022**

The school welcomed its learners physically for the new academic session 2022-2023 after two years of online teaching. To facilitate a smooth transition into the formal school system, a well planned adaptation programme was organized for new entrants of Pre School and Pre Primary from 4 -12 April 2022. The students were involved in various hands on activities namely, Toon World (Puppet show), Magic Tricks, Fun in the garden, School Tour and different Art & Craft activities etc.

# **FAREWELL 09 April 2022**

The students and staff of BBPS Rohini bid farewell to two batches of Class XII (2020-21 and 2021-22) on 9 April '22.

The farewell was planned and organised by the present XI (2022-23) students, who put up a spate of musical and dance performances.

The Principal shared her valuable insights on importance of kindness in life and wished the students great luck for all their future endeavours.

# EXPLORIKA 2022

## ❑ The Story Behind Invention: Mathematical concept

### THE STORY OF ORIGIN

Arithmetic Progression was invented by Johann Carl Friedrich Gauss

One day at school, Gauss's teacher wanted to take a rest and asked the students to sum the integers from 1 to 100 as busy work. To the teacher's annoyance, little Gauss came up to the teacher with the answer right away. His classmates and teacher were astonished, and Gauss ended up being the only pupil to calculate the correct answer.

Here is how he calculated:

$$a + ar + ar^2 + ar^3$$
$$\text{Sum} = \frac{a(1-r^4)}{1-r}$$

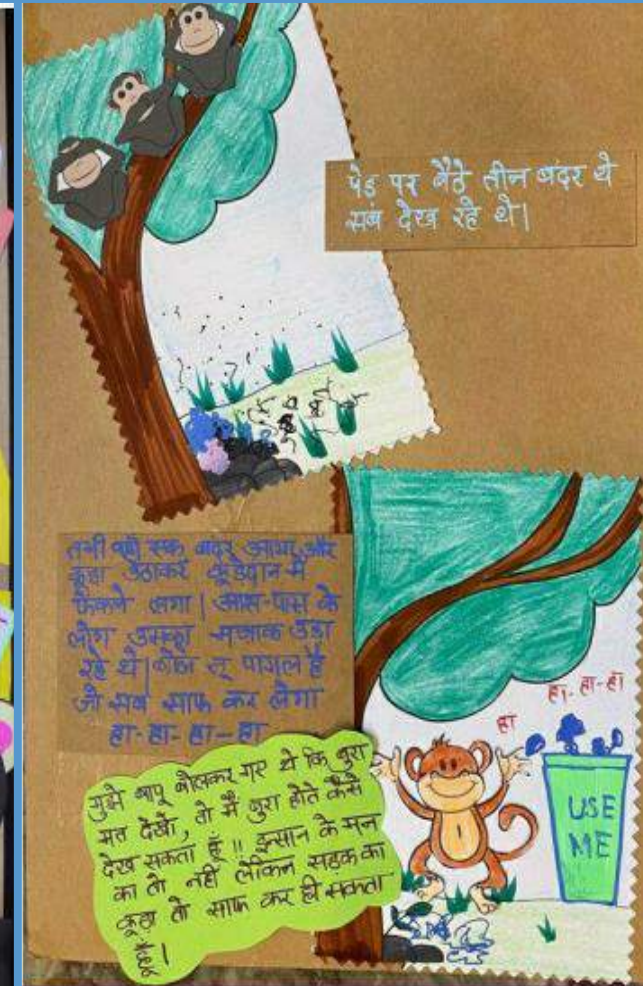

## ❑ Caricature on Green Marketing

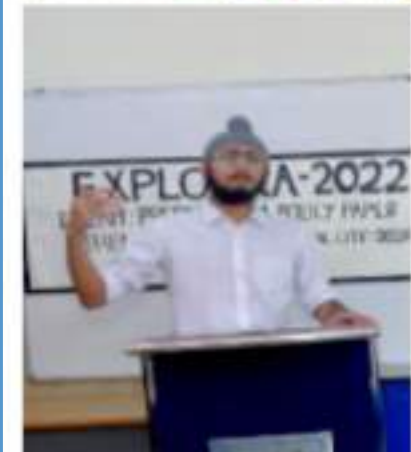

### Recycovation: Interview with CEO

# EXPLORIKA PRO 2022
