A PATH TO HOPE

FROM THE PRINCIPAL'S DESK

Education is about life and therefore, the connections drawn between our classroom activities and real life make the learning process meaningful and deep-rooted. As we get our children ready for the challenges of the future, we need to ensure that they aren't just successful and entitled adults but also need to establish their values along with strong personal as well as community ethics. I believe that the root of the entire education process is the Value addition to a student's existing pool of knowledge. It reminds me of the famous analogy of wings and roots for our students- wings to fly as high as possible and roots to stay grounded.

At BBPS, Rohini, our focus has always been to strengthen the fibre of values and ethics in the tapestry of learning that we weave. To engrain these values and ethics through experiential learning the school has created multiple platforms like the Interact Club and the Students Council that help students explore the course of their exciting and enriching actions. In this edition of the e-newsletter, we bring to you an annual showcase of the Interact Club activities executed to promote 'Compassion in Action'. All through the year 2023 the students have engaged in meaningful campaigns, donation drives, and sensitization activities. The issues raised by the team of young interactions are

compelling and of wide variety engaging the Gen Z with empathetic passion and commitment. What is even more heartening is the impact these endeavours have had on our children's value system and understanding of the world. They have imbibed the most valuable lesson that education can give them – Engage to make a difference. I hope you enjoy browsing through the e-newsletter and appreciate our efforts.

Ms. Geeta Gangwani

FROM THE VICE-PRINCIPAL'S DESK

In times of over-exposure to gadgets and virtual teaching, our students are losing the humane connection. Locked within the daily chores of curriculum and expectations of excellence, students have very limited social engagement. The tough situation has become tougher with the changed attitudes and perspectives after the COVID-19 Pandemic. We, as educators, felt the strong need to keep the students connected with the community and thus, the establishment of the Interact Club to add another spectrum of activities and engagements while imbibing the true life skills to our students. We have had a very active Interact Club activities charter to foster a comprehensive learning experience. Numerous activities have been meticulously organized for all classes, covering crucial topics through a blend of online and offline formats. These initiatives aim to engage students holistically, ensuring a balance between virtual connectivity and hands-on experiences. By adapting to the evolving educational landscape, we strive to provide a dynamic and enriching environment that transcends the limitations posed by external factors.

Interact Club not only strengthens the value system of our students but also make them realize that they are the catalysts of change in society, rendering them an altruistic and conscientious nature. The values like compassion, empathy and kindness are reinforced through multiple experiences. Also, these experiences ensure that our children don't grow up to take their privileges for granted but remember their role in social transformation.

Congratulations to the team and many more such achievements in the future.

Ms. Bandhana Sharma

FROM THE CLUB

INCHARGE'S DESK

In my role as the Interact Club incharge, my journey as an educator has been a vivid tapestry woven with an earnest desire to savor the richness of life and its myriad experiences. Guided by two foundational principles, our club evolved into a dynamic space for meaningful endeavors. Firstly, I instilled an action-oriented ethos into all our activities, ensuring a vibrant and participatory environment. Secondly, I empowered my students to take the lead, allowing their innate passion and ambition to shape our collective vision.

Amidst the delightful chaos of creativity, our students emerged as diligent problem solvers, showcasing both academic prowess and a practical approach to real-world challenges. The e-newsletter is a celebration of their hard work and innovative spirit, emphasizing the profound impact they've made.

The Interact Club's extensive use of social media, particularly the engaging Instagram page, reflects our commitment to speaking the language of the young. Beyond routine updates, the page tells stories of relevance, addressing social issues and commemorating noteworthy days.

Gratitude extends to mentors for their unwavering support, and the recognition from the district team reaffirms our dedication to excellence.

Looking forward, I anticipate new collaborations, fresh prospects, and an unwavering zeal to continue our transformative journey.

This moment serves as a heartfelt expression of gratitude to the cosmos for the profound and momentous experiences that have enriched our educational path.
