

## Library activity for November

The “Mathematical Calendar” library activity was conducted with students from Class VII. In this activity, each date highlighted a specific Mathematical concept from algebra , geometry, arithmetic and number system for the month of November. The activity inspired curiosity, and creativity and encouraged students to explore the beauty and complexity of Mathematics.

The activity was conceived and executed with commendable skill and creativity.

## Wordsmith Club activity

In November, the Wordsmith Club held an interactive and engaging activity called The Book Talk, which promoted creativity and a love for literature.

This activity required students to create a PowerPoint presentation about a book of their choice. Participants shared insightful details regarding the storyline, characters, and themes, along with their personal perspectives. The presentations were conducted both individually and in groups, fostering collaboration and improving presentation skills.
