**The greatest threat to our planet is the belief that someone else will save it.”—  
Robert Swan**

Dear Parents

Let's join hands to make a difference! As part of our Earth Hour initiative, we request that you switch off your lights from 8:00 PM to 8:05 PM on 22<sup>nd</sup> April'25. This small act can help reduce energy consumption and promote sustainability. This initiative is being promoted by our Honourable Chief Minister Ms. Rekha Gupta. .

What can we do ?

- Switch off lights, electronics, and appliances during this 5-minute period
- Encourage family, friends, and colleagues to participate.
- Take these moments to appreciate the beauty of the stars and the night sky. It will become a memorable time for all with a purpose.

Together, We Can Make a Difference..

By participating in this initiative, we can demonstrate our commitment to environmental conservation and inspire others to take action.

Thanks and Regards

Team BBPSRH
