

# BAL BHARATI PUBLIC SCHOOL

## PRINCIPAL'S DESK

***"There are no secrets to success. It is the result of preparation, hard work, and learning from failure."-- Colin Powell***

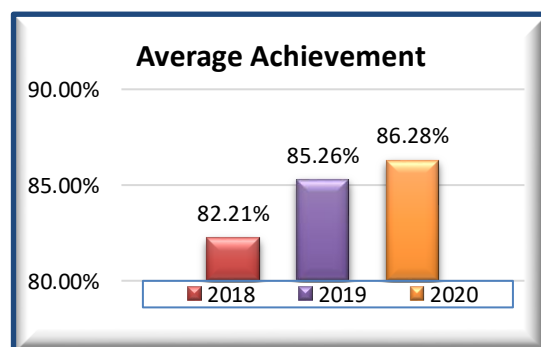

With great happiness and a heart full of pride, we bring to you the result highlights of CBSE Board classes X and XII. Year after year, the CBSE Board result has been a reflection of our students' determined persuasion and the teachers' continued hard work. Together, it has been the perfect concoction for our students' academic growth along with an inherent opportunity to character building. I am highly grateful to Shri L. R. Channa, the venerable President, Child Education Society (CES), our apex body, Dr. V. K. Ahuja, esteemed Chairman, BBPS, Rohini and Mrs. Suruchi Gandhi, charismatic Secretary Manager for their incessant support. It is indeed a moment to celebrate as I share the major achievements in AISSCE and AISSE results of 2020. The rise of our **Students' Average Achievement** in AISSCE results in the last three years as depicted by the accompanying graph is commendable. The average score in AISSCE, 2020 is 86.28%. Moreover, 157 students out of 159 secured I Division which is impressive 99.36%. **100% result** in AISSE, 2020 validates our sustainable action towards reinforcement and remediation. The average achievement in AISSE, 2020 is 81.80%. The improving scores truly reflect the rising aspirations of our students duly supported by encouraging parents and committed faculty.

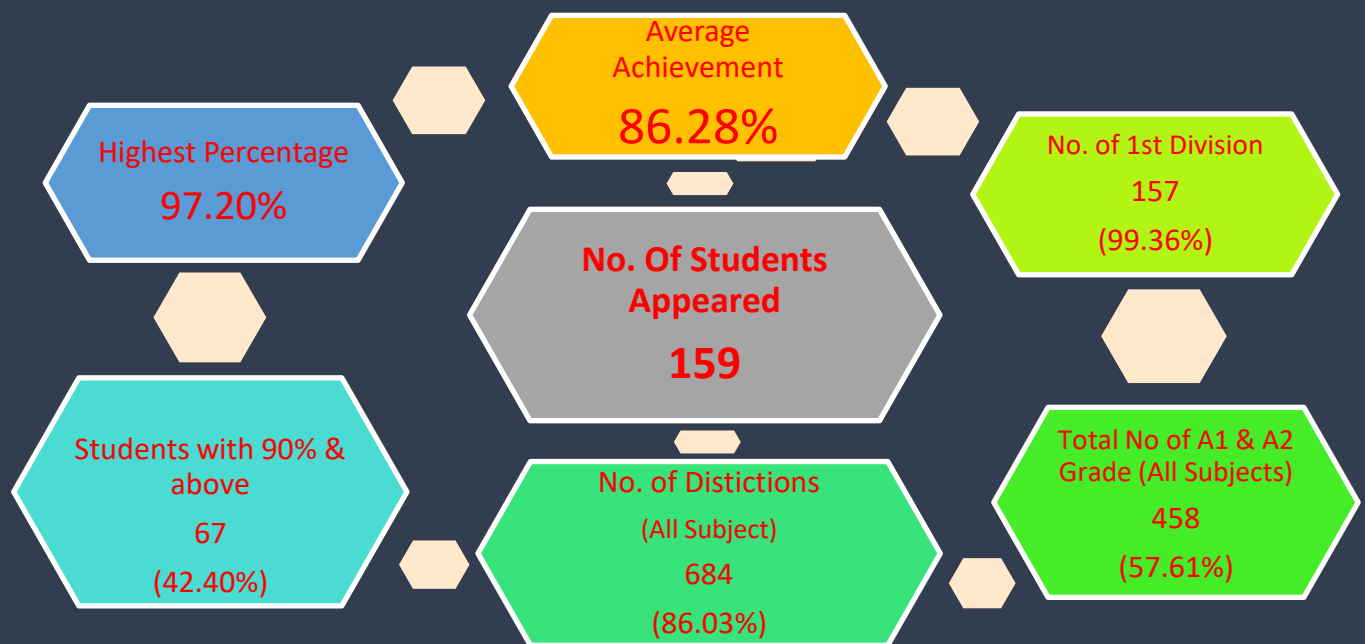

The true reason for our celebration is not just the rise in the students' marks range but the commemoration of **Inclusive Education**. Specially crafted learning modules are, regularly, designed to cater to each learner's capability. Remediation and graded assignments is a norm for all, the high achievers and the ones who needed scaffolding. The process helped us fill in the gaps and improve performances. The exemplary performance of our EWS candidates and those with special needs is not just an assurance of equal educational opportunities to all but it also mirrors an attitude in practice.

**Dear students, I congratulate all of you on your success. I acknowledge the fact that your hard work and determination has made us truly proud. It would not have been possible without helping hands of Parent community. The consistent hard work and contribution of teachers too is appreciable. Our senior students will be stepping out of the school and walking into the Universities for higher education. Dear students, stay positioned on the path of Self Improvement and Self Motivation. With an awareness of one's shortcomings, the challenges in the path of success become more acceptable. Accept, Strategies and Improvise should be the plan of progress. Wishing you All the Best for future endeavor.**

"I am overjoyed to know that my determination and hard work were able to convert into success. All this would not have been possible without the guidance and blessing of my teachers. I also want to thank my parents and friends who believed in me and kept my morale high throughout this wonderful journey. In the end, Success is a journey, not a destination. Enjoy it, and never stop." **Muskaan Gupta XII B**

It was an enthralling feeling for me and my parents when we received the news that I had topped the School and was the Commerce topper! At that moment, all the labour and the hard work I had done seemed to fruitfully pay off. But my success would not have been half as good as now if I had not had the support and correct guidance of all the teachers that had laboured just as much (or may be more) as me and all the students of Class XII. Because of my teachers' firm hold on their respective subjects and their lucid way of teaching, I didn't require any tuition for majority subjects which gave me sufficient time for self-practice. Although, scoring high in your school-leaving exams does give you a sense of complacency, but the future and current batch of Class XII must remember that the final exams are not the end of the world and in no way do they decide your destiny. So go ahead with a positive mindset, strive to do your best, focus on the learning process rather than scoring high and accept whatever you get on the way, for you did your best and achieved the highest for yourself. So, all the best for a bright and successful future and enjoy the last year (current Class XII) of your school life.

PROUD TO BE A PART OF SUCH AN AMAZING INSTITUTE! **Saumya Mittal XII C**

I guess we all have heard stories of winners and who came first in race, but just imagine if there were no races don't you think things would have been much more easier, and the most ironic thing is we have been just placed in this race out of nowhere we don't know the starting point and we don't know where is the end we are just running on a foggy tack without knowing where is it going to take us. All I am trying to say is choose your own path define a course for yourself and stop running in races. You need not to compete with someone else you only need to compete with yourself and become a better person than you were yesterday. WE ALL ARE WINNERS IN OUR OWN RACES, we just need to make right choice and things will fall into places on its own. I want to thank my parents for always supporting me and above all thank you for always reminding me to enjoy and celebrate life everyday I would also like to put forward my gratitude to the school for providing such amazing teachers and providing an environment where I can learn new things everyday. **Sejal Kalra XII D**
